MOLLER'S GUARANTEE

- 1 We guarantee our stock to be true to name. We will replace without charge, or refund purchase price if any proves otherwise.
- 2 We guarantee our stock to be first quality and to reach you in good condition. Examine it carefully upon arrival, and if you are not entirely satisfied, return it at once and we will replace free or refund your money.
- 3 We will replace, free of charge, trees and/or plants that fail to grow—providing, that the planter follows our Planting Instructions. Request for replacement should be made in July, and replacement trees will be shipped in the Fall. Free replacements will not be made, where loss is due to reasons beyond our control, such as from rodent damage, breakage after planting, or from neglect in watering and care.

READ

THIS INFORMATION

PLANTING SEASON: Fall, Winter and Spring (6 to 8 months), are ideal for planting in the West. Deciduous trees and plants—November to May. Evergreens, etc., October to June.

TIME TO ORDER: Orders are accepted any season of the year, for delivery at the proper planting time for your locality.

SUBSTITUTION: Please state when ordering an assortment whether substitution will be allowed, as we feel at liberty, when no instructions accompany the order, to use similar or better varieties when we are out of the kinds named. Check the squares Yes or No on the order blank.

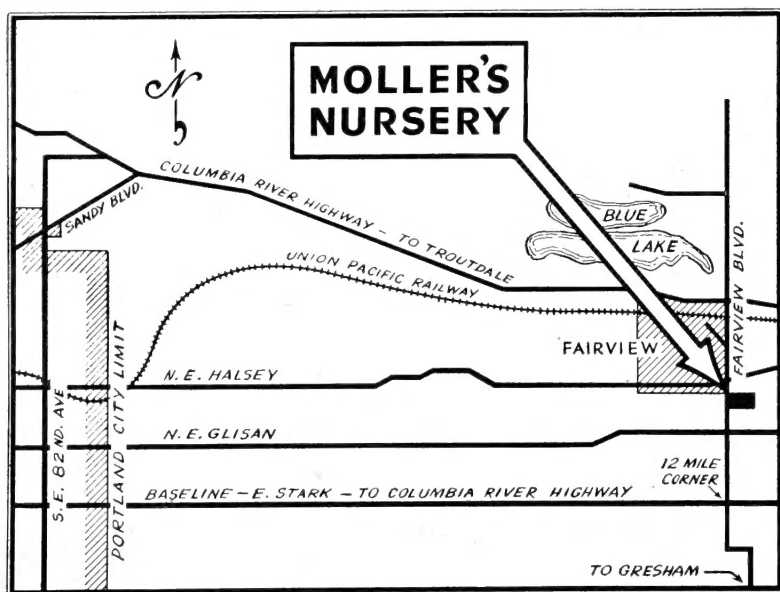

TERMS: Cash with order. Make all remittances by money order, draft, or check. Please do not send stamps or cash unless absolutely necessary and then register your letter. We cannot assume any responsibility for remittances lost in the mail. Please do not ask us to ship C.O.D. It costs you extra as the post office and Express Co. make an extra charge on C.O.D. shipments.

SOIL-FRESH TREES

Every tree and plant sold by us is freshly dug from the nursery and delivered immediately. We have no recourse to cold storage nursery stock. Freshly dug and delivered stock is an added guarantee for successful planting.

LOCATION

Our office and nurseries are located six miles East of Portland on Fairview Avenue, between Stark Street and Columbia River Highway.

This is not a large pretentious catalog, yet it brings you an honest message about nursery stock. The high quality of our stock is favorably known throughout the Northwest, besides which we have many customers throughout the nation. Since 1930 we have been growers of quality nursery stock, specializing in the growing of fruit and nut trees. Now we have extended our growing to cover a complete line of quality nursery products, and selling direct to the consumer, eliminating additional expense and handling, thus assuring the customer of quality stock at reasonable prices.

When it comes to fruit trees, you can buy them at most any price, but the trees that will produce the biggest crop of really worthwhile and saleable fruit cannot be expected from undernourished trees produced in a haphazard manner with the sole idea of seeing how cheaply they can be grown, thus disregarding standard grades, sizes, and specifications and careless as to their parentage.

Remember—When you buy nursery stock it is a living plant—the pedigree, or parentage, plays an important part in the future results of the very tree you buy—the “hidden value” is the inborn inheritance that becomes the final quality, type, strain, size, color and productiveness so necessary to the future performance, and right here is the very feature which makes Moller's grown nursery products have superior merits.

MOLLER'S Fruit Trees and Small Fruits are true to name, earlier to bear and yield larger crops because they are propagated from **SELECTED STRAINS**. Likewise, the parent plants used in propagating our **ORNAMENTALS** are of the finest types for their respective varieties.

In closing, may we personally take this opportunity of thanking our many customers for their continued confidence, for which we are sincerely grateful.

Yours very truly,

MOLLER'S NURSERY,

Melvin K. Moller,
J. W. Moller,

Proprietors.

AZALEAS

Azaleas prefer partially shaded location and acid soil. The Mollis, Altaclarensis and Occidentalis are medium size deciduous shrubs; very effective in group plantings or combined with evergreens. The evergreen varieties are dwarf growers and very profuse bloomers.

Evergreen Varieties

6-9" \$1.25; 9-12" \$1.50; 12-15" \$2.50

Postpaid

HINODEGIRI—Most showy of the Kurume azaleas is this dwarf evergreen shrub. In April it is covered completely with bright red flowers.

HEXE—Compact grower. Showy dark red hose-in-hose flowers. Blooms in May. One of the best.

PINK PEARL—One of the finest pink Azaleas. Low growing with light green foliage. Blooms in early May.

SHERWOODI—The orchid azalea. Foliage about the size of Hinodegiri. Flowers a clear lavender with speckled throat completely cover the plant in early Spring.

LEDIFOLIA ALBA (Snow Azalea)—Low growing Azalea with snow white flowers, making a very pleasing contrast with the more vivid types.

WARD'S RUBY—New evergreen Azalea with bright crimson blooms in early spring. Improved Hinodegeri. 6-9" \$1.50 Postpaid.

ROSEA FLORA—A low growing dwarf variety producing double pink flowers in June. 6-9" \$1.50 Postpaid.

Deciduous Varieties

6-9" \$1.00; 9-12" \$1.75; 12-15" \$2.50

Postpaid

MOLLIS—Very colorful spring bloom for the flowers are borne in large clusters and vary in color and intensity from bright orange to flame.

ALTACLARENSIS—Deep orange. A Chinese azalea resembling Mollis except in color.

CAMELLIA, PURITY

AZALEA MOLLIS

RHODODENDRONS

9-12" \$3.50; 12-15" \$5.00. Postpaid

PINK PEARL—Large trusses of delicate shell pink fading to blush. Excellent dark green foliage.

CYNTHIA—Large trusses, rosy-crimson flowers.

LORD ROBERTS—A fine dark red with black blotch. Medium size trusses.

ALICE—Rich deep pink with large conical trusses. Excellent foliage and compact growth.

CAMELLIAS

9-12" \$1.50; 12-18" \$2.25; 18-24" \$3.00

Postpaid

CHEERFUL—Double rosy-red flowers. A dependable free bloomer.

PINK PERFECTION—Very double, perfectly formed flowers of shell pink.

ELENA NOBILE—Unique brilliant flame-red flower. Free-growing and late flowering. Open flowers show a few golden stamens. A very choice variety.

PURITY—Large double ivory-white flowers showing yellow stamens. One of the best

LILACS

HYDRANGEAS

These shrubs with their magnificent array of large showy flowers and lustrous green foliage continue to be a delight to the gardener. They extend the flowering season of spring blooming shrubs well into the summer. Excellent for groupings. Do well in either sun or shade. Thrive in rich soil. Flowers appear from June to October.

Blue Hydrangea (H. Opuloides Otaksa)—Large compact flower heads shading from light to intense azure blue. Low and slow growth. When transplanted this variety may not assume the deep blue color that has made it a favorite, and to insure it, a solution of aluminum sulphate should be applied to the soil once or twice during the season. 12-15" \$1.25; 15-18" \$1.75.

Arborescens (Hills of Snow)—Large flat clusters of 4 to 5" snow-white blossoms with many flowerheads on a single bush. Looks like a dwarf snowball. Thrives in shade. Very hardy. 18-24" \$1.00; 2-3' \$1.25.

PeeGee (H. Paniculata Grandiflora)—Huge white cone-shaped blossoms turn to a delicate pink in autumn. May be dried for winter bouquets. Dark green foliage. 18-24". \$1.25. 2-3 ft. \$1.50.

Tree Hydrangea—This is the same as PeeGee above only trained to a single stem and with a branched top. 3-4' \$2.50; 4-5' \$3.00.

French Hybrids—Shades of blue, pink or red, depending upon your type of soil and the location. Easy to grow. Will reward you with many colorful flowerheads and fine foliage. 2 year size \$1.25 each; 3 for \$2.98.

FRENCH LILACS

No garden should be without lilacs. The Grafted French Lilacs are as dependable, hardy and easy to raise as the Old Fashioned Lilacs. Flowers are larger, more richly colored, and sweetly scented. We have them in both Double and Single types, in an assortment of colors. Two or more colors grouped together make an unusually attractive display.

PRICES

2-3 ft. plants.....Each \$1.75; 3 for \$4.75

Adelaide Dunbar—Double, dark red.

Belle de Nancy—Double, pinkish-lavender.

Charles Joly—Double, reddish-purple.

Edith Cavell—Double, milk white.

Katherine Havemeyer—Double, pink-lavender.

Ludwig Spaeth—Single, dark red.

Madam Lemoine—Double, pure white.

President Poincare—Double, reddish-lilac.

Villa de Troyas—Single, wine-red.

PLANTING SUGGESTIONS

We are interested in your success with every tree or plant we send out; we exercise the greatest care to place every item in the hands of our customers in the best possible condition, and in order to furnish some precautions and provide for complete satisfaction, we give a few hints on such points as are most essential.

TIME TO PLANT—Trees and plants usually become dormant about the 1st of November, and may be planted throughout the fall, winter and spring months. Fall and winter planting is preferred for the reason that the roots become established during the winter months, and are ready to make a vigorous growth when warm weather begins. However, excellent results are obtained with early spring planting.

CARE OF TREES ON ARRIVAL—Unless you are prepared to plant them immediately upon arrival, dig a trench large enough to accommodate the roots; cut the bottom string, and spread the roots carefully, firming the soil about them. **DO NOT PERMIT THE ROOTS TO DRY OUT OR FREEZE.**

PREPARING TREES FOR PLANTING—Don't fail to cut the top back (see illustration). This is necessary in order to balance the top with the loss of roots which always takes place when a tree is dug from the nursery. Trim each root back about one-

half inch or so with a sharp knife, and cut off all broken or bruised roots.

PLANTING—Dig the hole larger than is necessary to admit all the roots in their natural position; then having the tree pruned as directed, hold it in an upright position, and shovel the soil, carefully putting the finest and best dirt from the surface in among the roots, bringing every root in contact with the soil, firming gently with the foot. The tree should be planted about the same depth it was in the nursery row; this may be determined by the change of color in the bark.

Commercial and natural fertilizers are valuable when properly used. Do not let strong fertilizers come in direct contact with the bare roots.

WATERING—Artificial watering is highly desirable. Do not sprinkle, but give the plant all the water it will take at one time. No more water need be applied for several days when this is done.

SPRAYING—Fruits of best quality cannot be expected without following a good spray program. We suggest writing or consulting with your County Agriculture Agent, who will be pleased to give you any information you may need on this subject.

ORDER BY MAIL WITH CONFIDENCE

Ordering by mail from **MOLLER'S** catalog is a really pleasant way to shop. You can study carefully all the varieties and descriptions of various plants you wish to buy—all this while you are at ease in your own home and with the assurance that you will receive **QUALITY PLANTS** at **REASONABLE PRICES.**

PLEASE READ CAREFULLY BEFORE ORDERING

MINIMUM ORDER:

No shipping orders can be accepted for less than \$1.50.

NO C.O.D.'s Please

SHIPMENTS PREPAID:

All bare root materials shipped by mail, express or freight prepaid at our expense. Evergreen shrubs (except sizes marked postpaid) are shipped by express or freight, collect for transportation charges.

PLEASE ORDER EARLY:

Items ordered will be shipped in proper planting season. Shipping season Nov. 1st to April 15th.

METHODS OF SHIPPING:

In general the best methods of shipping the several types of nursery stock are **PARCEL POST AND EXPRESS.** We endeavor to follow shipping instructions given by our customers, but inasmuch as size, types, and number of plants ordered govern the most practical method, we reserve the right to change method of shipment. Give us the name of your nearest express or freight depot and we will see that you are notified when your shipment arrives.

ISSUING NURSERY RECORD

We sell and redeem American Association of Nurserymen Gift Certificates. These can be redeemed at our nurseries or at any of the 1100 nurseries in the United States affiliated with the A.A.N. This is the ideal way to remember friends either nearby or in distant places on birthdays, anniversaries and holidays. (Not issued for less than \$5.00 minimum.)

HOW TO GROW CAMELLIAS, RHODODENDRONS AND AZALEAS

Camellias, Rhododendrons and Azaleas require acid soil. If soil is not naturally acid it should be made so by the application of acid fertilizer, and peat moss. Applications should be made during the early spring months, or in the late fall. Provide sufficient drainage during the winter to prevent bud dropping. Plants require additional moisture during dry summer months. Careful cultivation of these plants will stimulate root action. Pruning to improve their shape should be done immediately after blooming. Picking the camellia blossoms will not harm the plants, but do not cut long stems, as they are slow growing.

FREE PLANTING INSTRUCTIONS

With each order shipped we enclose a copy of "How to Plant." This helpful booklet will give you much assistance in properly planting and caring for your plants.

HOW TO PLANT SHRUBS

SET TALL GROWING SHRUBS
AT REAR

HOW TO PLANT EVERGREENS

1. DIG A HOLE ONE FOOT LARGER AND DEEPER THAN THE BALL OF EARTH ON YOUR EVERGREEN. PROVIDE GOOD, LOAMY TOP SOIL TO FILL AROUND BALL.

5. THEN FILL HOLE WITH SOIL. PACK FIRMLY AND LEAVE TOP OF GROUND COVERED WITH LOOSE EARTH, OR MULCH WITH STRAWY, WELL-ROTTED MANURE.

VINES

Vines furnish a living cover for bare walls or fences. They make a wonderful background on trellis and walls, becoming more beautiful every year. The following varieties provide a brilliant display of color throughout their blooming season. Some are very fragrant. They all grow with little care other than watering and training.

IVY

Boston—Bright, green leaves, turning to vivid scarlet in fall. A self-supporting creeper, clinging to wood or stone. Perfectly hardy. 2-year plants. \$1.00.

English—The best for banks and covering. Spreads a glossy green mantle. 2-year plants, 75c each; 10 for \$5.00.

HONEYSUCKLE

Gold Flame (*Lonicera heckrottii*)—One of the showiest of the newer honeysuckles. Two-toned flowers—bright flame without, creamy yellow within, are very fragrant. Blooms from early spring to frost. Very hardy and disease resistant. 2-yr. plants. \$1.25.

Hall's Japan—Old-time favorite. White and yellow fragrant flowers last nearly all summer; foliage almost evergreen. Hardy. 2-yr. plants. \$1.00.

JASMINE

White (*Officinalis*)—Blooms all summer. One of the loveliest varieties of pure white flowers. 2-yr. plants \$1.00; 3-yr. \$1.50.

Yellow (Winter Jasmine)—Medium size shrub or small growing vine with bright green stems and pretty yellow flowers. Blooms very early, usually in February. 2-yr. plants \$1.00; 3-yr. \$1.50.

VIRGINIA CREEPER—Dense, green foliage turns bronzy red in autumn. Clings to walls or any support. 2-yr. plants. \$1.00.

BITTERSWEET—Favorite, with bright glossy foliage, bearing sprays of bright orange berries in fall. 2-yr. plants. \$1.00.

SILVER LACE VINE—Beautiful, quick growing vine, with rich, glossy green foliage, and a mass of feathery white bloom. 2-yr. plants. \$1.00.

CLEMATIS

Huge flowers in a wide variety of shapes and colors. Dies to the ground each winter, yet grows so rapidly that by Summer it's 8 to 14 ft. high, thickly covered with flowers. Best on fence or trellis. Thrives in rich well drained loam and partial shade. The plants we furnish will bloom this year.

Jackmani—Blooms in spring. One of the best loved varieties of clematis. Covered with velvety purple flowers as large as 4 to 6 inches across. \$1.00.

Mme. Edward Andre—Deep wine red star-shaped blossoms cover the whole vine so that you can hardly see the foliage. \$1.00.

Ramona—Large light lavender-blue flowers enhanced by a crown of dark anthers. Blooms freely. \$1.00.

Henryi—Blooms in late spring. Unexcelled for large, beautiful, creamy white flowers. Grows vigorously. \$1.00.

JASMINE →

WISTERIA

WISTERIA (Grafted)

Purple or Pink—The most magnificent of all vines. Lasts for generations, becoming more beautiful each year. 2-yr. plants. \$1.75.

TRUMPET VINE—Blooms spring and early summer. Provides a wealth of large trumpet shaped, orange-red flowers. Very showy. 2-yr. plants. \$1.00.

TRUMPET VINE

SNOWBALL

FLOWERING ALMONDS

MOCK ORANGE

FLOWERING SHRUBS

The flowering shrubs listed are deciduous and are planted primarily for their brilliance and fragrance of bloom. They should not be planted where an evergreen effect is desired throughout the year as they lose their leaves during the winter months and remain dormant until spring. When properly arranged, they will soften the lines of the foundation, will provide an effective border or screen, will cover the edges of walls and screen objectionable views. A selection of varieties will give a succession of flowers from spring until late autumn and after the foliage has fallen the brilliant berries and branches add color and cheer to the winter landscape.

ALTHEA

Rose of Sharon—Bright glossy leaves; flowers similar to a rose. Hardy summer and fall blooming shrub. Colors: Red, Purple, White, Pink. 18 to 24 in. \$1.00; 2 to 3 ft. \$1.25.

BARBERRY

Thunbergi—An excellent group plant for hedging. Foliage turns to a bright crimson before falling. Red berries. 18-24" \$1.00.

Red Leaved—Same as above except the foliage is red at all times. 15-18" \$1.00; 18-24" \$1.25.

KERRIA

Japonica—Slender upright stems and branches. Double orange flowers in the early spring and continue intermittently all summer. 18 24" \$1.00; 2-3' \$1.25.

BEAUTY BUSH

Kolkwitzia—Graceful, tall shrub with arching branches. Thousands of tubular shaped bright pink flowers are produced a long the entire length of the branches in spring. Extremely hardy. 18-24" \$1.25; 2-3' \$1.50.

MOCK ORANGE

Philadelphus Virginal—Semi-double pure white blossoms are borne over a long season. Very fragrant, and a handsome addition to any collection of flowering shrubs, 2-3' \$1.25; 3-4' \$1.50.

FORSYTHIA

Golden Bell—A justly popular, beautiful shrub of medium size. Flowers are bright yellow, appearing before the leaves in early spring. 18-24" \$1.00; 2-3' \$1.25.

HONEYSUCKLES

Bush Types—A hardy shrub, easy to cultivate and care for. Bush forms lend themselves well to mass plantings, or for use mixed with shrubs for screening. 2-3' size in following varieties. \$1.00; 3-4' \$1.25.

Morrowi—An upright type with pure white flowers followed by red berries.

Pink Tartarian—Similar to above but with pink flowers.

SWEET SHRUB

Calycanthus Floridus—An ornamental shrub becoming increasingly popular on account of the rare and pleasing spicy odor of its double, chocolate colored flowers. 18-24" \$1.00; 2-3' \$1.25.

FORSYTHIA

SPIREA

Anthony Waterer—A dwarf, 2 to 3 foot shrub, valuable for its showy flat clusters of bright red flowers all summer, but especially in late summer when other flowers are scarce. 15-18" \$1.00; 18-24" \$1.25.

Thunbergi—The first of the spireas to bloom in early spring. Slender branches clothed with feathery bright green foliage. Flowers pure white. 18-24" \$1.00; 2-3' \$1.25.

Van Houtte (Bridal Wreath)—This is the most popular of all spireas and is more largely planted than any other shrub. Its graceful arching branches are heaped with white flowers in early spring. Very hardy and thrifty under difficult situations. 2-3' \$1.00; 3-4' \$1.25.

SPIREA VAN HOUTTE

WEIGELA

Rosea—Large bright pink bell-shaped flowers blooming over a long period. 18-24" \$1.00; 2-3' \$1.25.

Eva Rathke—Dwarf form with red flowers. Blooms continuously throughout the summer. One of the best. 18-24" \$1.25; 2-3' \$1.50.

DEUTZIAS

One of the most satisfactory shrubs to plant for late spring blooming, either singly or in masses. Flowers borne in profusion.

Lemoine—Broad, round bush, bearing large clusters of pure white flowers. Very hardy. 18-24" \$1.00; 2-3' \$1.25.

Rosea—Taller growing than Lemoine, with double rose blooms. Attractive and thrifty. 2-3' \$1.00; 3-4' \$1.25.

Gracilis—A dwarf type. Slender and of graceful habit. Large clusters of white flowers. 9-12" \$1.00; 12-18" \$1.25.

TAMARIX

African—Delicate feathery green foliage; very showy open growth with clouds of bright pink flowers. 18-24" \$1.00; 2-3' \$1.25.

PURPLE LEAF FILBERT

A very useful shrub which adds color to any landscape with its dark purple leaves in Spring, turning to a soft red in Fall. 2-3' \$1.75.

FLOWERING ALMOND

ALMOND (*Prunus Glandulosa*)—These well known bushy shrubs never fail to produce in early spring, before the leaves appear, a profusion of small, very double, pink or white, rose-like flowers that are closely set along the branches. Choice of pink or white. 2-3' \$1.00; 3-4' \$1.25.

FLOWERING QUINCE

A bushy shrub, bearing brilliant red blossoms in early spring before the leaves appear. Shiny bronze-green foliage all summer.

18-24" \$1.25

2-3' \$1.50

FLOWERING QUINCE

SUMMER LILACS

BUTTERFLY BUSH (*Buddleia*)—An attractive shrub of spreading pendulous habit of growth; the branches tipped with long spikes of charming perfumed flowers. Available in the following named varieties and colors. All strong No. 1 plants. \$1.00.

Dubonnet—Dark wine.

Charming—Lavender pink.

SNOWBALL

Opulus sterile (Common)—The old fashioned snowball that blooms in May. 18-24" \$1.00; 2-3' \$1.25.

Plicatum (Oriental Snowball)—Showy clusters of double white flowers appearing in early June, with attractive green foliage. 18-24" \$1.50 each.

DEUTZIA

BROAD LEAVED EVERGREENS

PYRACANTHA (Lelandi)—Upright growth. Covered with immense clusters of orange berries in fall. 2-3 ft. \$2.50. (Postpaid sizes: 12-18" \$1.40; 18-24" \$2.00.)

DAHPNE

Odora—A most attractive bushy shrub. White bordered waxy green leaves; very fragrant pink flowers in clusters. Very early blooming. 18-24" \$3.75. (Postpaid sizes: 6-9" \$1.25; 9-12" \$1.75; 12-15" \$2.25.)

Cneorum (Rock Daphne)—Dwarf, low spreading evergreen with fragrant, deep pink blossoms which appear both in spring and fall. Ideal for rock gardens. It is hardy, too. (Postpaid sizes: 6-9" \$1.50; 9-12" \$2.00.)

COTONEASTER

Francheti—One of the best tall varieties. Arching branches bear pinkish white flowers and orange-red berries in fall. 2-3 ft. \$2.50. (Postpaid size: 18-24" \$2.00.)

Horizontalis—Low spreading shrub with graceful sprays arching out over ground and rocks, making an excellent cover. Covered with bright red berries in fall and winter. Foliage turns to attractive colors in fall. 15-18" \$2.00. (Postpaid size: 12-15" spread \$1.50.)

LAURESTINUS—A compact, hardy shrub that grows well in almost any location. Can be kept to any desired size by pruning. Produces large quantities of flowers in late winter months, pink in bud, white when open. 15-18" \$2.00; 18-24" \$2.50.

ANDROMEDA JAPONICA

PYRACANTHA (Firethorne)

HEATHER

Mediterranean Hybrid—The most popular of all winter blooming heathers. Dwarf growth with lavender pink flowers. (Postpaid sizes: 6-9" 75c; 9-12" \$1.25; 12-15" \$1.75.)

Irish Belle—A graceful little shrub with small dark green needles and delicate little spikes of bell shaped flowers. Attractive lavender blossoms in July and August. (Postpaid sizes: 12-15" \$1.50; 15-18" \$1.75.)

King George—A deep rose colored heather blooming in December and through the winter. One of the best. (Postpaid sizes: 6-9" \$1.00; 9-12" \$1.50.)

NANDINA DOMESTICA (Sacred Bamboo)—A very attractive shrub seldom over 5 feet tall. Delicate small leaved foliage, reddish when new, later turning a rich green. Flowers in spreading panicles, white turning bright red berries. Autumn color very brilliant. 18-24" \$2.00. (Postpaid sizes: 12-18" \$1.75.)

PORTUGAL LAUREL (Cherry Leaf Laurel)—The dark green leaves of this plant make a nice contrast in the foundation planting. Not as fast a grower as the English Laurel. 18-24 in. \$2.50. (Postpaid sizes: 12-15" \$1.50.)

MEXICAN ORANGE (Choisya Ternata)—Waxy, fragrant light green foliage. Sweet scented, pure white clusters of flowers from February until June. Not hardy east of Cascades. (Postpaid sizes: 9-12" \$1.50; 12-15" \$1.75; 15-18" \$2.25.)

PLEASE NOTE

When comparing catalog prices of Trees and Shrubs the height gives a poor idea of true value. Well furnished plants of sturdy ripened growth cannot properly be described or compared on paper.

BROAD LEAF EVERGREENS

ABELIA GRANDIFLORA—Gracefully arching branches covered with glossy green leaves. Pink trumpet shaped blossoms borne from spring until fall. 2-3 ft. \$2.50. (Postpaid sizes: 12-18 in. \$1.50; 18-24 in. \$2.00.)

ANDROMEDA JAPONICA—Low, compact evergreen bush to 4 feet. Clusters of creamy white blossoms in early spring. 9-12" \$1.50; 12-15" \$2.50, postpaid.

AUCUBA

Golddust—Large, glossy green leaves speckled with gold. Valuable for shady places. Large bright red berries. 15-18 in. \$2.25; 18-24 in. \$2.75. (Postpaid size: 12-15 in. \$2.00.)

Greenleaf—Like the above but leaves entirely green. Plants bear brilliant red berries. For shady places. (Postpaid sizes: 9-12 in. \$1.75; 12-15 in. \$2.00.)

EUONYMUS

Evergreen Euonymus—Broadleaf evergreen with dark green glossy leaves. Rapid upright growth to six feet if left untrimmed. Can be sheared into formal shapes. 15-18 in. \$2.00; 18-24 in. \$2.25. (Postpaid sizes: 9-12 in. \$1.25; 12-15 in. \$1.75.)

Golden Euonymus—A slow growing variety of compact growth; foliage golden yellow toward edges, blotched in center with light and dark green. (Postpaid size: 9-12 in. \$1.50.)

Variegated Euonymus—Of spreading growth; foliage heavily variegated with creamy white and margined pink. A very beautiful variety. (Postpaid sizes: 9-12 in. \$1.25; 12-15 in. \$1.75.)

LAUREL (English)—An evergreen especially adapted to this territory. Large, thick glossy, green leaves on bushy compact plant. Responds to trimming very well. Hardy to 5°. 18-24 in. \$1.50, postpaid. (See page 11 for Hedge Plants.)

PHOTINIA Serrulata (Chinese Photinia)—No finer broad leaved evergreen shrub. Foliage brilliant red in spring, scarlet in fall. Large leaves with prickly margins. Large clusters of white flowers followed later with black berries. 18-24" \$2.75. (Postpaid size: 12-18" \$1.75.)

PRIVET (Golden)—Much used as a specimen plant and for foundation planting. Foliage golden yellow and light green variegated leaves. (Postpaid: 18-24" \$1.50; 2-3' \$1.95.)

SKIMMIA JAPONICA—Low, compact plant; dark green leaves, large red berries on female plants during winter. Needs male plant for pollinizer. (Postpaid sizes: 9-12" \$1.75; 12-15" \$2.50.) Male plants same price.

DWARF DAPHNE CNEORUM

BOXWOOD

Truedwarf—A very dwarf boxwood used for specimens, very low hedges or window boxes. Can be kept to a height of 4 to 8 inches. 6-8 in. 75c each postpaid.

Truetree—Tall upright growth. Very popular for shearing to geometric designs. 18-24" sheared to a pyramid, \$3.75.

VIBURNUM BURKWOODI

VIBURNUM BURKWOODI (Fragrant Snowball)—A very fine hybrid form. Excellent waxy green foliage. Evergreen, but the glory of this shrub is its large clusters of waxy, fragrant flowers—larger and prettier than those of Carlesi. Very choice. 18-24 in. \$2.75, postpaid.

HOLLY (English)—Small tree or bush with glossy deep green leaves and red berries. Traditional for Christmas decorations. Cutting grown from selected trees. Self-pollenizing. 15-18 in. \$2.75; 18-24 in. \$3.95, postpaid.

KALMIA LATIFOLIA—Related to the Rhododendron and making an ideal companion in the Rhododendron and Azalea planting. Oval green leaves; clusters of dainty pink flowers ribbed like tiny parachutes, in May and June. Postpaid sizes: 9-12 in. \$2.00; 12-15 in. \$2.75.

SKIMMIA

EVERGREEN SHRUBS

Indispensable in all ornamental plantings. They impart a finish to the landscape whether planted as single specimens or grouped together in mass. Moller's evergreens are strong, field-grown plants, freshly dug and carefully packed to reach you in good planting condition.

PLEASE NOTE—Unless otherwise marked all Evergreen Shrubs are priced F.O.B. Fairview and shipping charges are collect at destination.

ARBORVITAE

Berckman's Golden—3-4 ft. The most popular dwarf golden arborvitae. Very compact, globe-shaped, bright golden foliage. Hardy. 12-15 in. \$2.75. (Postpaid sizes: 8-10 in. \$1.50; 10-12 in. \$2.00.)

Woodward's Globe—Grows to 3-4 ft. Dense dark green sprays of flattened foliage. Fine for low planting and formal design. Keeps its globe shape without trimming. Hardy. 12-15 in. \$2.75; 15-18 in. \$3.00. (Postpaid size: 8-10 in. \$1.25.)

Goldspot (Thuja Lobbi)—10-15 ft. One of the best arborvitae for congested and industrial areas as it withstands considerable smoke and dust. Foliage is broader than most Thujas and very handsome with golden tips against a deep green. 18-24 in. \$2.50; 2-3 ft. \$3.00.

Pyramidalis—10-15 ft. Upright compact column type with light green foliage which keeps dense without shearing. Hardy. 2-3 ft. \$3.25; 3-4 ft. \$4.50. (Postpaid size: 18-24 in. \$2.25.)

CEDRUS DEODORA

One of the most popular conifers. Large sweeping branches with silver green foliage. Fast growing to 40-60 feet. Needs room to spread. Hardy and will stand hot climates. 9-12 in. \$1.50; 12-18 in. \$2.00; 18-24 in. \$2.95. Postpaid.

CYPRESS

Blue Alumi—6-10 ft. Compact symmetrical pyramidal shrub with a pronounced metallic blue foliage. Requires very little pruning. Hardy. 2-3 ft. \$3.00. (Postpaid sizes: 9-12 in. \$1.25; 12-18 in. \$1.75; 18-24 in. \$2.25.)

IRISH JUNIPER

Ellwoodi—6-10 ft. Silvery-blue foliage is compact and lacy. Moderate, columnar growth, making it an excellent accent plant. Postpaid sizes: 8-10 in. \$1.25; 15-18 in. \$3.00.

Birdsnest—2-3 ft. Horizontal branches radiating from the center to form a dense mass of bright green foliage suggestive of a bird's nest. Postpaid sizes: 12-15 in. \$2.75; 15-18 in. \$3.25.

JUNIPER

Irish—6-8 ft. A narrow, erect, columnar shrub, with attractive blue-green foliage. Excellent for framing doorways. One of the best columnar evergreens. Hardy anywhere. 2-3 ft. \$3.00. (Postpaid sizes: 12-18 in. \$1.75; 18-24 in. \$2.25.)

BERCKMAN'S GOLDEN ARBORVITAE

PYRAMIDAL ARBORVITAE

Pfitzer's—4-6 ft. Silvery green foliage on low spreading branches. Excellent for foundation plantings, slopes or groups. Rapid grower. Hardy. 15-18 in. \$3.00. (Postpaid sizes: 8-12 in. \$1.25; 12-15 in. \$2.50;)

Savins—3-4 ft. Semi-upright. Spreading vase shape. Horizontal branches with dark green foliage. Excellent for foundation planting. Hardy. 15-18 in. \$3.00. (Postpaid sizes: 6-9 in. \$1.25; 12-15 in. \$2.50.)

Tamarix—18 in. Color a bright, cheerful bluish green throughout the year. Seldom over 18 inches high. One of the best creeping varieties. Hardy. Postpaid sizes: 4-6 in. \$1.25; 8-12 in. \$2.00; 12-15 in. \$2.50.

Spiny Greek—5-6 ft. Semi-dwarf. Compact, broad pyramid of stiffly erect blue-green foliage. Useful in foundation plantings or as a specimen. Hardy. 15-18 in. \$2.50; 18-24 in. \$3.00. (Postpaid sizes: 6-9 in. \$1.25; 12-15 in. \$2.10.)

Red Cedar (J. Virginiana)—25-30 ft. Upright pyramidal form. May be trimmed to any size or shape. Gray-green, feathery foliage turning to reddish-purple in fall. Hardy. Postpaid sizes: 9-12 in. \$1.25; 12-15 in. \$1.75; 18-24 in. \$2.50.

PFITZER'S JUNIPER

PINE

Mugho—Grows to 3 feet at maturity. Very slow grower. Branches are upright, dense and spreading. Very useful in foundation planting and rock gardens. Hardy. **Postpaid sizes:** 6-9 in. \$1.25; 9-12 in. \$1.75; 12-15 in. \$2.50.

SPRUCE

Colorado Blue—15-20 ft. One of the most beautiful and symmetrical conifers. Makes perfect individual specimen. Stiff short, branches with rich blue foliage. Slow growing. Hardy. 18-24 in. \$5.00.

Norway—35 ft. A rapid growing erect tree with short dark green needles. Favorite outdoor Christmas tree. Hardy. 18-24 in. \$2.75. (Postpaid sizes: 12-15 in. \$1.25.)

RETINOSPORA

Moss (Cham. squarrosa)—10-15 ft. A handsome evergreen with soft feathery, blue-green foliage. Dense, broad pyramid, that can be kept pruned to any desired height. **Postpaid:** 9-12 in. \$1.75; 12-15 in. \$2.25.

Golden Plum—10-15 ft. A dense conical evergreen with feathery golden foliage. Makes a fine formal specimen. Excellent for foundation planting. **Postpaid:** 6-9 in. \$1.00.

YEW

Irish—10-15 ft. The aristocrat of all conifers. Compact dark green foliage. Grows erect and becomes thicker with age. Excellent as an accent for doorways or where formal effects are desired. Hardy. 2-3 ft. \$4.50. (Postpaid sizes: 12-15 in. \$1.25; 15-18 in. \$2.25; 18-24 in. \$3.75.)

Golden Irish—10-15 ft. A golden variegated variety of Irish Yew. 2-3 ft. \$4.50. (Postpaid sizes: 15-18 in. \$2.25; 18-24 in. \$3.75.)

WINDBREAK TREES

LOMBARDY POPLAR

POPLAR

LOMBARDY—Tall spire-like tree with a very narrow spread. Dark glossy green foliage. Ideal for accent and windbreaks. 4-5 ft. \$1.00; 5-6 ft. \$1.25; 6-8 ft. \$1.75; 8-10 ft. \$2.50.

Hedge or Windbreak size:	Per 25	Per 100
18-24 in.	\$3.25	\$12.50
2-3 ft.	3.75	13.50

ELM

CHINESE or SIBERIAN—Very rapid in growth, probably growing faster than any other shade tree. Produces dense shade and will grow in poor soils with very little water. Hardy and adaptable to various climatic conditions. 4-5 ft. \$1.25; 5-6 ft. \$1.50; 6-8 ft. \$2.00.

Hedge or Windbreak size:	Per 25	Per 100
18-24 in.	\$1.75	\$ 6.00
2-3 ft.	2.75	10.00

IRISH YEW

HEDGE PLANTS

Can you imagine anything more beautiful and fascinating than a living fence that improves with age—gets stronger, more beautiful every year. No painting or repairing to do, just prune to make it grow heavier and thicker.

BARBERRY

Green Leaf Barberry—Makes an excellent compact low growing hedge 2 to 3 feet tall. The foliage turns to a bright crimson before falling and red berries hang on all winter. Has small thorns. Plant 1 foot apart. 12-18 in. plants, 10-25 plants @ 20c each; 26-100 plants @ 15c each.

PRIVET

California—Grows to 8 ft. Easily sheared to any height. Upright, quick growing, with lustrous deep green foliage. Grows in almost any soil. Withstands temperatures down to 10°. Plant 6 to 12 inches apart. 18-24" plants, 10-25 @ 20c each; 26-100 @ 15c each.

English—Grows to 8 ft. One of the best. Makes an ideal hedge to border your lawn or driveway. Smooth green leaves, small black berries. Stands heat and cold well. Easily pruned. Same prices as California.

BOXWOOD—Dwarf (Buxus Suffruticosa)—Just the thing for formal gardens. Can be clipped to almost sculptured lines. Plant 6-9 inches apart. 4-6 inch No. 1 hedge grade. 10-25 plants @ 40c each; 26-100 plants @ 30c each.

LAUREL

English—Grows 5-8 ft. Especially fine for specimen shrub or large hedges. Bushy with thick, glossy green leaves. Hardy to 5°. Plant 18-24 inches apart. 12-18" plants, 10-25 @ 40c each; 26-100 @ 30c each.

SPIREA

Van Houtte—Makes a beautiful flowering hedge with its profuse clusters of tiny white blooms completely covering the sweeping branches in May. Grows to 6 feet, but may be pruned any time after blooming, to desired heights. 18-24" plants, 10-25 plants @ 40c each; 26-100 plants @ 35c each.

SHADE and ORNAMENTAL TREES

Trees, especially, have a character that is instantly imparted to the home over which they stand guard. They are a real part of a home—the cheapest part, and so almost universally neglected.

Trees are beautiful as well as useful, too. Winter or summer their infinite variety commands our reverence, and their smile is one of peace.

Is your house actually standing out on the bare land, or does it just look that way because there is no “setting” of greenery to the picture? **Plant trees now. Don't deny yourself their company and influences.**

BECHTEL'S FLOWERING CRAB

FLOWERING CHERRY

The lovely Oriental flowering cherries are among the most beautiful of the small flowering trees. They are particularly showy in spring when they are a mass of bloom. The flowers are unusually large. Ideal as a lawn specimen.

3-4 ft. \$2.00; 4-5 ft. \$2.25; 5-6 ft. \$2.75, postpaid

KWANZAN—One of the best flowering cherries. Double pink flowers, some often 2 inches across.

MT. FUJI—Large double snow white flowers in drooping clusters. Truly a magnificent sight.

SHIROFUGEN—Early flowering. Colorful buds are deep pink and open to double pale pink flowers. Large blossoms.

AMANOGAWA—15 ft. Unlike all other varieties it is extremely narrow and erect in growth, taking very little room. Flowers semi-double pink in large clusters.

NADEN—25-30 ft. Similar to Kwanzan only blooming at a later date. Double pink flowers, vigorous grower. Adapted to street or lanes.

WEeping CHERRIES

One of the finest weeping trees for lawns and small grounds. The branches are slender and when grafted on tall stems, fall gracefully to the ground. The flowers are rose-colored, appearing before the leaves.

Single pink weeping cherry—No. 1 heads, grafted 5-6 ft. from ground. \$4.25.

Double pink weeping cherry—Same price as single.

GOLDEN CHAIN

LABURNUM VOSSI—An upright ornamental tree with silky gray-green clover shaped leaves. Blooms in spring. Grows to 20 ft. A lavish covering of small golden yellow flowers in cluster-like chains sometimes 18 to 20 inches long. This is the new improved grafted type. 4-5 ft. br. \$2.50; 5-6 ft. br. \$3.00; 6-8 ft. \$3.50.

FLOWERING CRAB

Producing flower effects equal to those of more talked-of cherries. The crabs are hardy and add a charm of fragrant wildness to a planting.

BECHTEL'S—One of the most popular of all flowering crabs for its delicate double pink flowers, about 2 or 3 inches across, resembling lovely roses. One of the latest to bloom. 2-3 ft. \$1.25; 3-4 ft. \$1.50; 4-5 ft. \$1.75.

SCHEIDECKERI—The flowers are double, bright pink, last a long time and the fruit which is produced in great profusion, is a waxy yellow. The tree has a regular pyramidal habit, about 15 feet high. 4-5 ft. \$1.50; 5-6 ft. br. \$2.00.

HOPA—A beautiful, upright growing tree with attractive foliage. Entirely covered with rose-colored flowers in April. Fruit red inside and out, hanging on until late autumn. 4-5 ft. \$1.50; 5-6 ft. \$2.00.

NIEDZWETZKYANA (Redvein Crab)—20-25 ft. A large growing variety with remarkable large red flowers in April followed by large red fruits and leaves. 4-5 ft. \$1.50; 5-6 ft. \$2.00.

ELEYI—12-15 ft. Attractive reddish foliage in spring changing to pink. Clustered single rose-pink flowers followed by showy red fruit. 4-5 ft. \$1.50; 5-6 ft. \$2.00.

CATALPA

CATALPA SPECIOSA (Western Catalpa) — Large heart-shaped leaves cover this symmetrical tree, making a neat dense shade. Flowers crepey in texture, quite large and in great showy clusters. Fragrant. 5-6 ft. \$2.00; 6-8 ft. \$2.50.

HAWTHORN

PAUL'S SCARLET—Very popular flowering tree. 15-20 ft. high and a mass of vivid color in spring when covered with bright scarlet flowers. 4-5 ft. br. \$2.50; 5-6 ft. br. \$3.00; 6-8 ft. \$3.50.

WEeping CHERRY

PAUL'S SCARLET HAWTHORN

FLOWERING PLUMS

Small growing, distinct ornamental trees used as specimens or grouped with other trees and shrubs in border or background. Their foliage produces beautiful tones of purple, very attractive where colored effects are desired.

BLIREIANA—Upright growth with dark purple foliage. The blossoms appear in early spring before the leaves. Very showy, double, delicate pink flowers. This is one of the best varieties. 4-5 ft. br. \$1.50; 5-6 ft. br. \$1.75; 6-8 ft. \$2.50.

ROSE TREE OF CHINA (*Prunus Triloba*)—Early, before the leaves appear, the slender branches of this little tree are solid festoons of glorious pink rose-like flowers. 2-3 ft. \$1.25; 3-4 ft. \$1.50.

THUNDER CLOUD—This variety has the most beautiful foliage of any of the flowering plums. The leaves appear a rich red color gradually becoming darker, turning to a very rich purple. Masses of early white flower. 4-5 ft. \$1.50; 5-6 ft. \$1.75. 6-8 ft. \$2.50.

FLOWERING PEACHES

For an easily and quickly obtained mass of spring color, there is nothing to excel the Flowering Peaches. They will grow with ease anywhere and never fail to produce a great profusion of bloom. Branches can be cut for indoor use. (Spray with Bordeaux.)

Double Red—Rich ruby-red. Very large blooms.

Double Pink—Large double pink flowers. Strong grower.

Double White—Large blooms of pure white.

Prices: 4-5 ft. \$1.25; 5-6 ft. \$1.50

NUTS, FRUIT AND SHADE

Why not combine a beautiful ornamental shade tree with marvelous, big, mahogany-brown chestnuts or plump English walnuts or soft-shelled almonds or crisp, juicy crab apples? All of these and many other fine fruiting varieties, which are also attractively ornamental, are described and priced in the fruit tree section of this catalog on pages 19 to 27.

MOUNTAIN ASH

SORBUS AUCUPARIA—Small tree with attractive foliage. Makes a neat small pyramid. Small white flowers in spring develop large clusters of bright red berries in fall. 5-6 ft. \$2.00; 6-8 ft. br. \$2.50.

RED BUD

CERCIS CANADENSIS—A very graceful, attractive little shade tree bearing rosy-pink flowers in early spring. Twigs and bark dark red in color. Dwarf in habit of growth. 4-5 ft. \$1.75; 5-6 ft. \$2.25.

TULIP TREE

LIRIODENDRON TULIPIFERA—Very handsome upright tree with rich green foliage. Magnolia-like yellowish-green tulip shaped flowers. For refined garden and street planting. 4-5 ft. \$2.00; 5-6 ft. br. \$2.50; 6-8 ft. br. \$3.25.

FLOWERING DOGWOOD

CORNUS NUTTALLI (Pacific Dogwood)—A very handsome tree, 20 to 40 ft. high, and is especially attractive when in bloom. Flowers, typical of flowering Dogwood, have a ring of four "petals", often are 6 inches across. Pure white. 5-6 ft. \$2.50; 6-8 ft. \$3.25.

CORNUS FLORIDA (Eastern Dogwood)—Smaller than our native western dogwood seldom over 15 feet high. Handsome summer foliage turning to soft red color in fall. Large, showy single white flowers in spring. 2-3 ft. \$2.50; 3-4 ft. \$2.95.

PINK FLOWERING DOGWOOD

PINK FLOWERING (*Cornus florida rubra*)—Dwarfer than our western native, seldom growing over 15 feet. Large clusters of rosy-red flowers. Color is better when trees are established so yours may not show its true color at first. Very free flowering. One of our best flowering trees. 2-3 ft. \$4.00; 3-4 ft. \$5.00.

SHADE TREES

MAPLE

NORWAY (*Acer platanoides*)—The hardy nature of this tree as well as its beautiful deep green foliage and well-shaped head makes it an outstanding shade or street tree. 5-6 ft. \$2.00; 6-8 ft. branched \$2.75.

SILVER (*Acer Dasycarpum*)—A very hardy variety with semi-cut leaves, bright green on surface and silver underneath. Grows rapidly and large. 5-6 ft. \$2.00; 6-8 ft. \$2.50; 8-10 ft. \$3.00.

ACER Negundo Variegata (Variegated Boxelder)—A different type tree for lawn or parking strips. Small, slow growing. Leaves different from ordinary maples—more like an ash, with attractive irregular borders of white, center portions green. 3-4 ft. \$1.25; 4-5 ft. \$1.75.

RED MAPLE (*Acer Rubrum*)—One of the most attractive maples. In the spring the tree is full of scarlet flowers followed by bright red seed. Foliage is attractive deep green above and blue green below during Spring and Summer and in Fall a brilliant rosy-scarlet. Makes a large, shapely ornamental tree suitable for lawn or parking. 3-4 ft. \$1.25; 4-5 ft. \$1.50; 5-6 ft. \$2.00.

MULBERRY

RUSSIAN—Fast growing, erect, round head with luxuriant foliage. Very hardy. Bears edible fruit resembling blackberries in appearance, that are very popular with children and birds. 4-5 ft. \$1.25; 5-6 ft. \$1.75; 6-8 ft. \$2.25.

COPPER BEACH

FAGUS SILVATICA PURPUREA—Aristocrat of shade trees. New foliage in Spring is purple, turning to green with age; shimmering copper in fall and holding to mid-winter. Grafted trees 3-4 ft. \$3.75; 4-5 ft. \$4.50.

BIRCH

CUTLEAF WEEPING—A very graceful and clean appearing tree with its white bark and slender drooping branches, and deeply cleft leaves. 4-5 ft. \$1.75; 5-6 ft. \$2.50; 6-8 ft. \$3.00.

EUROPEAN WHITE—Leaves similar to poplar. White bark and of pyramidal form. A fine street tree and very hardy. 4-5 ft. \$1.25; 5-6 ft. \$1.75; 6-8 ft. \$2.50.

CUTLEAF WEEPING BIRCH

PLANE TREES

PLANE TREE

PLATANUS ORIENTALIS (European Sycamore)—A handsome tree of large proportions widely used for park and avenue plantings. Highly ornamental, handsome foliage; free from insects and disease. 4-5 ft. \$1.50; 5-6 ft. \$2.00; 6-8 ft. \$2.50.

OAKS

QUERCUS COCCINEA (Scarlet Oak)—Tall stately tree. Leaves deeply cut, thin and leathery. Very attractive all season but especially in fall when they are a rich red. Much used as Hallows' decoration. 5-6 ft. \$2.00; 6-8 ft. \$2.50.

QUERCUS PALUSTRIS (Pin Oak)—One of the finest oaks for home planting. Straight trunk with symmetrical head of smaller sharp pointed deeply cut leaves. Autumn color is bright crimson. 5-6 ft. \$2.00; 6-8 ft. \$2.50.

QUERCUS RUBRA (Red Oak)—Most rapid grower of all oaks. Makes an excellent shade tree, similar in habit and appearance to the Scarlet Oak. Does well in full sun. 5-6 ft. \$2.00; 6-8 ft. \$2.50.

LOCUST

BLACK LOCUST—A rapid growing tree that will thrive in any soil. Flowers in long pendulous racemes, white and fragrant. 5-6 ft. \$1.50; 6-8 ft. \$2.00.

PINK FLOWERING—Attractive, fragrant pink blossoms. A smaller and slower growing tree than the Black Locust. Grafted trees, 5-6 ft. \$3.25.

THORNLESS HONEY LOCUST—A large spreading tree 40 to 60 feet tall. Foliage is feathery, fern-like. Fragrant white flowers in spring. Withstanding difficult conditions. Not as fast a grower as the Black Locust. 3-4 ft. \$1.25; 4-5 ft. \$1.75; 5-6 ft. \$2.25.

WEeping WILLOW

BABYLONICA—The most effective large growing tree of all. The branches are olive green, slender, graceful, drooping nearly to the ground. Long, narrow silky green leaves. Fine as a specimen tree alone. 3-4 ft. \$1.00; 4-5 ft. \$1.35; 5-6 ft. \$1.75; 6-8 ft. \$2.50.

GOLDEN WEEPING (Niobe)—Rapid growing with long pendulous branches often reaching the ground. Bark very colorful—golden yellow. Will thrive in low wet ground. 3-4 ft. \$1.00; 4-5 ft. \$1.35; 5-6 ft. \$1.75; 6-8 ft. \$2.50.

ROSES OF DISTINCTION

Introduced Before the Plant Patent Law Became Effective

In making up the following list of Roses, we have selected only the choicest varieties, in complete assortment of all colors and shades. Our Roses are all strong 2-year field-grown plants with well balanced tops and roots, and are not to be confused with lighter grades offered at lower prices. All have bloomed in the nursery before being dug for shipment and with proper care will grow and bloom profusely for you the first year. Graded according to standards adopted by the American Association of Nurserymen.

PRICES OF ROSES ON THIS PAGE

\$1.00 each; 6 for \$5.40; \$9.95 per dozen. Postpaid.
All Strong, Two-year Field-grown. No. 1.

LULU

PINK SHADES

DAINTY BESS—Single crinkled petals of shell-pink. Ideal for arranging purposes as a cut flower. Continuous bloomer.

EDITOR McFARLAND—Free-flowering vigorous upright shrubs. Buds are beautifully modelled opening to fragrant deep pink flowers on strong stems. Very fine as cut flower.

LULU—Long dainty buds of coral-pink. Semi-double blooms.

PICTURE—Really a picture either in the well shaped bud stage or as open flowers. Medium in size, the rose-pink flowers have a velvety texture and show salmon undertones. One of the best, free flowering and vigorous.

THE DOCTOR—Very fragrant rose of a lovely silvery pink. Buds are long and pointed, opening into a large rose of strong fragrance.

YELLOW SHADES

McGREDY'S YELLOW—Well-formed buttercup yellow buds expanding to semi-double blooms of light yellow.

NARZISSE—Apricot yellow buds and maize-yellow blooms are exceptionally large and come erect on vigorous plants.

MRS. P. S. DUPONT—The most universally satisfactory of all golden yellow roses. Small exquisitely formed reddish gold buds open to beautifully formed golden yellow blossoms. Spicy.

SISTER THERESE—Perfectly formed golden yellow buds, opening to full, fragrant flowers. Strong grower.

ORANGE AND TWO-TONED

AUTUMN—Intense and rich in color suggestive of autumn with shades of burnt orange, russet bronze and bronzy red all on a rich yellow ground. One of the most striking roses.

MRS. SAM McGREDY—Perfectly formed and richly colored flowers with sweetbriar fragrance. The long stems make them admirable for cutting. Flowers combine red, copper and orange changing to warm pink and gold as they age.

HINRICH GAEDE—One of the most brilliant roses from the buds in orange vermillion to the open flowers of orange yellow with glowing red flush. Stems long and wiry.

PRES. H. HOOVER—A wonderful multi-colored rose. It combines shades of cerise pink, flame scarlet and yellow; exquisitely fragrant. Buds long and pointed and open flowers fully double and showy.

TALISMAN—A vividly colored rose of an unusual combination of gold, apricot, pink and carmine in mingled splashes, streaks and blends. Flowers fairly double, borne on long stems.

RED SHADES

AMI QUINARD—Dainty buds of deep maroon expand into black-lustered red blooms with damask fragrance.

CHRISTOPHER STONE—One of the best deep red roses. Attractive long pointed buds open to vivid scarlet crimson flowers. Alluring damask fragrance. Lovely bronzy foliage.

E. G. HILL—The most unfading of all red roses. Flowers a dazzling scarlet shading to deeper red as they develop. Deliciously fragrant; excellent for cutting.

ETOILE DE HOLLANDE—One of the most popular brilliant crimson red roses. Beautiful oval buds; large double flowers. Richly fragrant.

POINSETTIA—Well formed buds and richly colored flowers of poisetia-scarlet, which suggested the name. Large double blooms. You will be charmed with this beauty.

WHITE SHADES

K. A. VICTORIA—Long shapely buds open to delightfully fragrant full petaled cream white flowers. Petals show a slight lemon tint towards the center.

McGREDY'S IVORY—Symmetrical ivory buds opening to immense white blooms.

MME. JULES BOUCHE—For size and form the flowers of this rose are unbelievable. Buds long and pointed; flowers creamy white. One of the best white roses.

TALISMAN

MISSION BELLS
(P.A.F.)

THE NEWER ROSES

Including  All-America Award Winners

1950 AARS WINNERS

 **SUTTER'S GOLD** (P.A.F.)—The only rose to win both the Bagatelle Gold Medal and the All-American Award for 1950. Beautiful golden buds overlaid with orange and red open to spectacular flowers with more fragrance than any other yellow rose. \$2.50 each; 3 for \$6.25. Postpaid.

 **MISSION BELLS** (P.A.F.)—Buds a beautiful deep salmon pink opening to a clear shrimp pink. Large flowers generally borne singly on long stems make this a very desirable rose. \$2.50 each; 3 for \$6.25. Postpaid.

 **CAPISTRANO** (P.A.F.)—A vigorous and sturdy rose producing large buds and flowers with a rich, heavy fragrance. Deep, glowing rose-pink in the bud and open flower, with a beautiful leathery foliage. \$2.50 each; 3 for \$6.25. Postpaid.

 **FASHION** (Pat. No. 789)—**FLORIBUNDA ROSE**. Abundant double blooms of deep coral-peach borne in clusters. Blooms from spring until heavy frost. Especially suitable for table decorations and corsages. Bushes strong and vigorous, growing to 3 feet. Very desirable. \$2.00 each; 3 for \$5.00. Postpaid.

SPECIAL 1950 COLLECTION

1 each of the above 4 winners \$7.95, postpaid

GRAND DUCHESS
CHARLOTTE
(Pat. 455)

 **FORTY-NINER** (Plant Pat. No. 792)—AARS winner for 1949. Brilliant bicolor. Rich yellow outside, vivid red inside. Chrome yellow bud. Vigorous grower and quite free from thorns. The best non-fading bicolor rose. \$2.00 each; 3 for \$5.00. Postpaid.

 **NOCTURNE** (Pat. No. 713)—AARS Selection for 1948. Large pointed buds open to semi-double blooms of cardinal red shading to deeper crimson. Strong fragrance. \$1.50 each; 3 for \$3.75. Postpaid.

 **TAFFETA** (Pat. No. 716)—1948 AARS Winner. Perfectly formed fragrant buds of rich carmine-rose. Glossy dark green foliage. \$1.50 each; 3 for \$3.75. Postpaid.

APPLAUSE (Pat. No. 829)—Winner of the French Bagatelle Award at Paris. Big fragrant flowers of dazzling light red. Excellent foliage. \$2.00 each; 3 for \$5.00. Postpaid.

KATHERINE T. MARSHALL (Plant Pat. No. 607)—Fruity odor which adds charm to the warm, soft pink of the attractively shaped, long-stemmed bloom. \$1.35 each; 3 for \$3.40. Postpaid.

 **CHARLOTTE ARMSTRONG** (Pat. No. 455)—The All-American Rose for 1941. The long slender buds are blood-red, and the brilliant open flowers spectrum-red in cool weather. Cerise in hot weather. Each \$1.50; 3 for \$3.75. Postpaid.

CRIMSON GLORY (Pat. No. 105)—Typical urn-shaped buds open to full well-formed deep vivid crimson blooms. Highest rated red rose nationally. Delightfully fragrant. \$1.35 each; 3 for \$3.40. Postpaid.

 **FRED EDMUNDS** (Pat. No. 731)—Beautiful buds of burnt-orange open to lasting blooms of reddish apricot aging to orange-pink. Sturdy, glossy foliage. All American winner in 1944. Each \$1.50; 3 for \$3.75. Postpaid.

GLORIOUS (P.A.F.)—Clusters of deep vermillion buds open to semi-double flowers of Tyrian rose. The well-branched bush is covered with many blooms. Extremely vigorous. \$1.25 each; 3 for \$3.15. Postpaid.

RECENT INTRODUCTIONS

 **GRAND DUCHESS CHARLOTTE** (Pat. No. 455)—AARS Selection for 1943. Perfectly formed buds of rich claret red change as the flowers open to lovely begonia-rose. Richly fragrant. \$1.50 each; 3 for \$3.75. Postpaid.

LOWELL THOMAS (Pat. No. 595)—A compact growing bush well covered with canary-yellow blooms. Buds are long and slender. An excellent garden variety in growth and showiness. \$1.50 each; 3 for \$3.75. Postpaid.

McGREDY'S SUNSET (Pat. No. 317)—A splendid succession of blooms which are borne in great profusion. Buds are deep yellow tinted carmine which open to a delightful saffron-yellow of great charm when fully open. It is an extremely showy variety for garden use. \$1.35 each; 3 for \$3.40. Postpaid.

 **PEACE** (Pat. No. 591)—1946 AARS Winner. One of the loveliest roses of our century. Golden yellow buds from canary yellow, to pale gold, to iridescent cream. Unusually large flowers borne on strong stems. Glossy green foliage. \$2.00 each; 3 for \$5.00. Postpaid.

 **RUBAIYAT** (Pat. No. 758)—All American Selection for 1947. Extra large blooms of rose-red inside petals, with outside several shades lighter. Vigorous plant, resistant to minor ills. \$1.50 each; 3 for \$3.75. Postpaid.

SATURNIA (Pat. No. 349)—Grand sweepstake winner, Portland Rose Festival 1949. A vivid two-toned rose of deep cardinal red inside of petals, with reverse salmon-yellow and copper. Fragrant. \$1.50 each; 3 for \$3.75. Postpaid.

SLEIGH BELLS (P.A.F.)—At last a white rose that really grows, and blooms and blooms. Large ovoid buds borne singly on long stems. A trace of cool primrose at the base of the petals adds life to the large fragrant blooms. Glossy foliage resistant to disease. \$2.00 each; 3 for \$5.00. Postpaid.

WHITE WINGS (P.A.F.)—Pure, clear-white petals around a golden center crown, form a glistening contrast to the laurel-green foliage. Blooms in pyramidal sprays. \$1.50 each; 3 for \$3.75. Postpaid.

FLORIBUNDAS

Baby Roses of Charm

A rose class of distinct character. They grow into a shrubby bush, well clothed with vigorous, disease-resistant foliage. The profusion of bloom from June until hard frost gives color in the rose garden when bloom is gone from all other roses. They are gorgeous for mass plantings and enclosures. Flowers in clusters on dwarf compact bushes of two to four feet.

FLORADORA—One of the recent Floribundas in a new brilliant cinnabar-red. Bush growing to three feet. **Each \$1.00.**

ROSE ELFE—Deep rose-pink buds opening a lighter color, blooms continuously until frost. Plants 2 feet. **Each \$1.00.**

PINOCCHIO (Plant Patent No. 484)—Exquisite buds of salmon flushed with gold at the base. Opens to a clear pink. Bushes strong and vigorous, growing to 2 feet. **Each \$1.25; 3 for \$3.15.**

GOLDILOCKS (Plant Patent No. 672)—This new yellow rose is welcome to round out the color scheme of a popular group of roses. Fragrant double buds of boutonniere size produced in gratifying quantities. **Each \$1.50; 3 for \$3.75.**

WORLD'S FAIR (Plant Patent No. 362)—Large clusters of velvety rich scarlet flowers blooming continuously through the summer. Fragrant. This variety was outstanding at the world's fair. **Each \$1.25; 3 for \$3.15.**

FLORIBUNDA SPECIAL—ALL 5 ROSES

1 Floradora 1 Goldilocks
1 Rose Elfe 1 World's Fair
1 Pinocchio

\$6.00 value . . . Only \$5.35, postpaid

BEAUTIFUL CLIMBING ROSES

Strong 2-year Plants \$1.00 Each; 6 for \$5.40; \$10.00 per Dozen Unless Otherwise Priced

For trellis, porch or arbor, the Climbing Roses produce a most wonderful covering of delicate foliage and delightful flowers.

BLAZE (Pat. No. 10)—The everblooming counterpart of Paul's Scarlet. Brilliant red blooms can stand full sun. **\$1.50 each; 3 for \$3.75. Postpaid.**

ETOILE DE HOLLANDE—The most satisfactory all-around red climbing rose. Has rich color, good form and delicious fragrance.

TALISMAN—A climbing sport of the popular bush form. A mixture of orange, yellow, rose-red scarlet, and gold.

PAUL'S SCARLET—The most popular of all red climbing roses. Vivid scarlet flowers of good size, produced in cluster.

CECILE BRUNNER—Small, perfectly double, exquisitely formed soft rose-pink flowers borne in clusters. A vigorous climber and persistent bloomer.

HIGH NOON (Plant Patent No. 704)—1948 Sectional Winner. Brilliant yellow, well shaped buds and semi-double flowers on long, thornless stems continue to bloom throughout each growing season. Exceptionally fine in mild climates. **Each \$2.00; 3 for \$5.00.**

DR. J. N. NICOLAS (Plant Patent No. 457)—From late spring until frosts, this remarkable new rose produces its fully double deep rose-pink flowers. Very fragrant. Hardy as Paul's Scarlet. Grows 8 to 10 feet tall. **Each \$1.50; 3 for \$3.75.**

CITY OF YORK—A magnificent new white climbing rose. Large semi-double to double white flowers in late spring bloom over a long period. Very fragrant. Deep green, glossy foliage. Hardy. **Each \$1.25; 3 for \$3.15.**

Climbers, on fences.....	8 -10 feet

SPECIAL NOTE

All our Roses are taken fresh from the soil and shipped immediately, assuring you of live vigorous plants that have not been allowed to dry out and lose their vitality.

Delicious PEARS

HARDY—EASY TO GROW

The pear thrives over a wide range of soils and climatic conditions. The French pear roots withstand heavy wet soils better than most other fruits. Unlike other fruits, the pear develops better quality when ripened off the tree, and should be picked before it begins to soften. Two trees alike or different, planted near each other, will produce more heavily than if planted alone.

Prices: Please refer to price list on page 20.

BARTLETT—A well-known favorite for eating fresh or canning. Large size, buttery, juicy and highly flavored. Tree a strong grower and bears early and abundantly. August-September.

BOSC (Beurre Bosc)—Large, deep yellow, russet colored and long neck. Juicy and delicious. One of the best autumn pears. Good keeper. September-November.

COMICE—Skin rich yellow at maturity, often lightly shaded with crimson. Flesh white, fine grained and melting, sweet and rich. Very good. October-November.

ANJOU (Beurre D'Anjou)—A fine pear; rather large, flesh yellowish white, rich and vinous flavored. Tree good grower and productive. October-January.

FLEMISH BEAUTY—Large fruit; pale yellow, becoming reddish brown at maturity on the sunny side. Flesh yellowish white and juicy. Excellent for canning. Late September.

BARTLETT PEAR

ALL STOCK IS STATE INSPECTED AND ALL OUR SHIPMENTS CARRY AN INSPECTION CERTIFICATE. GRADES AND STANDARDS ADOPTED BY THE AMERICAN ASSOCIATION OF NURSEYMEN USED THROUGHOUT THIS CATALOG.

ANJOU PEAR

WINTER NELLIS—Tree hardy and thrifty. A delicious winter pear of medium size; flesh yellowish white, very juicy when ripe. One of the finest for eating. December-February.

WINTER BARLETT—Fruit large, closely resembling the famous Bartlett in shape and appearance but ripening considerably later. Flavor almost identical with the Bartlett.

KEIFFER—A large yellow pear noted for keeping. A healthy, hardy and vigorous grower which bears young, heavily and regularly. October-January.

SECKEL—Called the Sugar Pear because of its sweet, delicious flavor. Fruit is not large but the highest quality. Ripens in late summer. Bears young and heavily.

APPLES

The most important of all fruits, thriving on nearly any well drained soil. Its period of ripening extends nearly through the entire year. By making a careful selection, a constant succession can be obtained. Every home should have this profitable and healthy fruit.

RED
DELICIOUS

CRAB APPLES

(Same Prices as Apples)

TRANSCENDENT—Medium to large, brownish yellow with blush of bright red. Flesh firm and crisp, fine grained, very juicy. September.

RED SIBERIAN—Small fruit, averaging an inch in diameter, borne in clusters. Bears young and abundantly. Deep red over-all color, sprightly flavor. August-September.

WHITNEY—Fruit large, yellow, striped with red and covered with red on sunny side. Very juicy and fine grained, almost sweet. August.

DOLGA—Myriads of beautiful little bright all-over red apples in the fall. Glistening white blooms in the spring. Delicious to can whole in spices. Needs very little sugar. Extremely hardy. A fine ornamental tree.

FALL VARIETIES

KING—Striped red and yellow. Large handsome, good cooking and table apple. Fine producer. October-January.

NORTHERN SPY—A fine, large greenish yellow with red strip apple. Strong growing trees. Excellent eating or cooking variety. November-February.

FAMEUSE (Snow Apple)—Fruit medium in size, flesh white, tender and juicy, slightly perfumed; flavor sub-acid, extra good. Tree, hardy moderate grower. October-November.

YELLOW BELLFLOWER—One of the old standard varieties. Medium to large size. Prolific bearer of excellent quality. November-January.

WEALTHY—Big red and green striped apple with smooth skin. Firm white flesh is tender and juicy with wine-like flavor. Does well almost anywhere.

SUMMER VARIETIES

YELLOW TRANSPARENT—The most popular early variety. Yellow; acid; tender; juicy. Early, abundant bearer. July-August.

GRAVENSTEIN—The best fall table apple. Golden yellow with red strips. Strong grower. September-October.

RED GRAVENSTEIN—Same as above but fruit all red color. Ripens September-October.

RED ASTRACHAN—A fine apple for cooking, eating and general home use. Good quality. Yellow covered with red; striped appearance. Early and abundant bearer. July-August.

RED JUNE—Fruit medium size, brilliant red, juicy. July-August.

DUCHESS—Fruit large yellow with red stripes; firm; tender; sub-acid; good bearer. August-September.

ANOKA—Medium sized red and green striped fruit. Excellent to eat and makes wonderful pies and apple sauce. Hardy everywhere, thriving on poorest soils. Excellent pollenizer. This Apple ripens in midsummer, and usually starts bearing the year after trees are set out.

WINTER VARIETIES

BALDWIN—One of the old standbys. Large, deep red. Tart, juicy, early and abundant bearer. Good family variety. December-March.

WINTER BANANA—Large, clear, waxy yellow with red blush. Good cooking and eating. Crisp, tart flavor. December-April.

RED DELICIOUS—Same as Delicious excepting it is solid red, and juicier. Flesh fine grained, crisp and juicy. Preferred for eating. Good keeper. October-March.

ORTLEY—One of the leading yellow commercial apples. The fruit is fine grained, firm, juicy and distinctive in flavor. Good keeper. November-March.

RED ROME BEAUTY—An improved Rome Beauty. Solid red. Firm, fine textured, sweet crisp and juicy. Keeps all winter. Hardy and strong growing. Nov.-March.

GRIMES GOLDEN—High quality; medium large; yellow. Tree hardy and productive. November-March.

JONATHAN—Red and yellow, juicy, rich flavor, tender flesh. Very productive. Fine eating. Good commercial variety. November-April.

SPITZENBERG—Medium to large, deep red, spicy, crisp flavor. Good cooking and eating. November-April.

STAYMAN WINESAP—Most profitable market variety. Large size, bright red color, great productiveness and best quality to commend it. Tree is vigorous grower, is irregular and drooping habit, and adapts itself readily to various soil situations. November-February.

YELLOW DELICIOUS—A large apple of excellent quality. Bears young, very prolific. Crisp, white, rich flavored flesh. Good eating and cooking. December-April.

YELLOW NEWTOWN PIPPIN—One of the best quality apples. Very firm, juicy, crisp; delicious. Commercial variety. December-May.

WINESAP—Medium size, dark red, juicy and good flavor. A leading commercial apple. Excellent keeper. December-April.

TOLMAN SWEET—A very large sweet apple of fine flavor. The fruit is creamy yellow, sometimes blushed on sunny side. Tree vigorous and hardy, very productive. December-March.

McINTOSH RED—Medium size; red, white flesh, tender, juicy. Productive and very hardy. November-February.

APPLE, JONATHAN

DWARF FRUIT TREES for the Small Yard

These trees seldom grow over 10 feet high, making it easy to prune and spray them, and the fruit which is of true variety, is within reach for easy picking. Can be planted closer together than standard fruit trees.

2-yr. Medium $\frac{1}{2}$ - $\frac{3}{8}$ " Trunk \$2.85

Apples	Pears
Gravenstein	Bartlett
Red Delicious	Anjou
Yellow Delicious	Flemish Beauty
Yellow Transparent	Winter Nellis

QUINCES

The quince is a hardy compact growing tree, requiring little space. It is very productive, self pollenizing and comes into bearing early. The fruit is much sought for canning, jellies and preserves. The dwarf slow-growing habit of the tree makes it an excellent lawn tree.

Prices: Please refer to price list on page 20.

CHAMPION—Very large, handsome fruit. Greenish yellow skin, with yellow flesh that cooks up well.

ORANGE—Large, round somewhat irregular with small, short neck. Fine, golden-yellow flesh of excellent flavor.

PINEAPPLE—One of the best for home use. Fruit large, highly flavored. Greenish yellow to deep yellow in color.

APPLE, YELLOW TRANSPARENT

PEACH, J. H. HALE

MAYFLOWER—One of the earliest peaches. Medium sized, creamy white fruits, mottled with dark red; firm, white, juicy and sweet.

GOLDEN JUBILEE—An excellent, early canning peach; good firm shipper. Rich yellow meat and yellow skin with a bright red cheek. Very hardy and reliable bearer because it blooms late. Tree is self fertile and a good pollinizer for other varieties.

ROCHESTER—Has the habits and characteristics of the Crawford, but fully two weeks earlier. Yellow freestone, good size, very sweet and fine flavor. Tree is hardy, comes into bearing early and yields well. Highly recommended.

IMPROVED ROCHESTER (Western Pride)—Large yellow freestone ripening after Rochester. Flesh golden yellow, firm and deliciously flavored. One of the earliest good canning peaches.

CRAWFORD'S EARLY—Has all the characteristics that gratify taste. Color, rich red splashed and mottled with darker red and golden yellow. Flesh is beautiful deep yellow, with red at the pit. Vigorous and productive. Matures in mid-season.

IMPROVED ELBERTA—This is an early Elberta type peach, ripening about two weeks earlier than Elberta. Fruit is a beautiful golden yellow, blending into a deep pink on the sunny side. Has a strong protecting skin, exceptionally heavy bearer and a good pollinizer for the J. H. Hale. This is one of the finest home canning peaches grown. Very popular with commercial growers.

J. H. HALE—A leading commercial variety. Fruit is of largest size, highly colored; flesh is yellow, exceedingly firm and yet tender when eaten. Flavor is unexcelled. Fruit ships exceedingly well; remains on the tree in firm condition for a longer time than any other freestone. Popular for home canning.

SOUTH HAVEN—A highly recommended peach introduced by the South Haven Experiment Station. Very large, yellow flesh and good producer. Ripens after Rochester and before Elberta. Excellent canning variety.

ELBERTA—Large yellow, with red cheek; flesh yellow, firm, juicy, of high quality. Exceedingly prolific. Leading market variety.

HALE-HAVEN—A wonderful new peach of recent introduction. Produces loads of huge delicious fruit early, when mouths are watering for the season's first peaches. Frost resistant. A great money-maker. Fruit golden yellow with a red cheek and a strong protective skin. Fine grained, firm, rich, golden fleshed freestone. Often bears second year after planting. Two weeks earlier than Elberta. It has been well tested, and has proven reliable.

BABCOCK—The fruit is almost round, above medium size; colored beautiful pink to deep crimson. The skin is exceptionally smooth; flesh white. Recommended for regions having a mild winter only.

PEACHES

Fresh, tree ripened peaches are a delicious fruit that may be grown at little expense. They are easy to grow, quick to come into bearing, and very productive. May be grown in almost any sheltered location where winters are not too severe or springs late or so uncertain that blossoms may be harmed by frosts. All our peaches are propagated from certified bud wood, **VIRUS FREE** and otherwise clean stock. The trees we offer are 2 year field grown stock and are not to be confused with June budded or one year field grown trees.

Prices: Please refer to price list on page 20.

RED HAVEN—A new early ripening yellow freestone peach just recently introduced. Brilliant red color with creamy background, smooth skin, almost fuzzless. Reddens before it ripens. Bears heavy crops and should be thinned for best results. Bears young. Self pollinizing. Supply limited.

EARLY REDBIRD—Very early. White, cling, extra large with a bright red blush. The first peach of large size to ripen. Supply of trees limited for this season.

HALES EARLY—One of the best early white peaches. Skin greenish, splashed with red. Flesh white, juicy and sweet.

VETERAN—A yellow freestone of Candian origin. Fruit is large, round, superior to Elberta in quality and ripens about two weeks earlier. Hardier in bud than most varieties for cold sections.

We invite your comparison of our PRICES, GRADES AND QUALITY

The fruit Trees listed in this catalog are all Two and Three-year Field Grown, liberally graded and strictly first quality trees.

PEACH, RED HAVEN

APRICOTS

Prices: Please refer to price list on page 20.

Apricots are a beautiful and delicious fruit, a close relative of the plum and peach, combining the qualities of both. The fruit ripens after the early cherries, and just before plums and peaches.

PERFECTION—One of the newest apricots of recent introduction. Tree very hardy, adaptable to high or low altitudes, bears over a period of 4 to 6 weeks. Heavy bearer of large fruits; excellent flavor.

TILTON—Medium to large, firm flesh, sweet and juicy. Trees hardy and thrifty growers. One of the most popular.

ROYAL—Early fruit, medium size and round, flesh yellow. Trees bear young. Heavy producer.

CHINESE (or Mormon)—Recent introduction. Very hardy; resembles Tilton, which it surpasses for size and hardiness. Fruit medium size, firm, fine grained texture, exceptionally sweet flavor. Vigorous grower.

WENATCHEE MOORPARK—One of the largest size apricots. Fruit orange with red cheeks; firm, juicy; good flavor. One of the most popular varieties.

NECTARINES

A most unusual and delicious fruit. Resembles the peach in shape, size and flavor, but is fuzzless like a plum. Fruit is large, juicy, and melting. Excellent for eating or canning. Has same habit of growth as peach, and requires same care.

Prices: Please refer to price list on page 20.

BOSTON—Freestone. Immense yellow fruits, sweeter than white fleshed varieties. Very good for home orchards and local markets. July-August.

STANWICK—A perfect freestone with firm white flesh. Pale green skin shaded purplish red. Delicious, juicy white flesh, aromatic flavor. The favored commercial variety for shipping, drying and canning. Late August.

NECTARINE

APRICOT, ROYAL

COMBINATION FRUIT TREES

For the home owner with limited space, these trees supply the average family with fresh fruits over a long season, from a single tree. We have many different combinations which include the best varieties ripening from early Summer to late Fall. Due to the fact that some varieties do not do well in combination with others, when grafted on the same tree, we reserve the right to supply trees nearest your selections.

In ordering select the combination you prefer—we will send the tree closest to your selection.

PLUMS

Plums are one of the easiest fruits to grow and early to bear. They are hardy in all but very severe climates and thrive best on medium heavy soil with good drainage. **Planting at least two or more varieties** will take care of such varieties that are deficient in fertile pollen. Varieties listed are those that have proven best for the West.

Prices: Please refer to price list on page 20.

SANTA ROSA—Large, purplish crimson; flesh yellow, mottled crimson; very good quality. A leading shipping and market variety. July.

SATSUMA—A very large and well flavored plum with blood red flesh; skin bluish red; very small pit; vigorous and productive. A well known variety much in demand for home use. July.

PRESIDENT—A fine flavored plum. Fruit large, dark blue, flesh yellow. Popular and profitable shipping variety. August.

YELLOW EGG—A large, handsome yellow plum. Egg shaped, golden yellow covered with thin bloom. Firm juicy, sweet. One of the best. Late. August.

IMPORTANT

There is a vast different in fruit trees sold on the market today. We can supply the smaller grade fruit trees which are often quoted in Bargain Offers and will quote them on request; however, we do not recommend them for Home Orchard Planting. Prices in this catalog are for Quality trees.

PLUM, SATSUMA

ABUNDANCE—Tree a strong grower. Fruit large; skin bright red cherry color; flesh yellow, tender and juicy. July-August.

ACE—Very sweet, freestone. Flesh and skin bright red. Deserves wider popularity. September.

BURBANK—Medium to large, crimson red, splashed with yellow. Small pit. Firm, sweet, tender flesh. One of the hardiest and best yielding plums. Good home garden variety. Excellent pollinizer. August.

BLUE DAMSON—Small blue plum. Has tart flavor, good for making jams. Very prolific. August.

BRADSHAW—Mid-season, large dark, violet-red plum. Juicy, excellent flavor. Desirable for canning.

BEAUTY—Beautiful oval crimson fruits of large size, with amber-crimson flesh. Ripens 10 days earlier than Santa Rosa. Good pollinizer.

CLIMAX—Very large; deep dark red; flesh yellow, delicious flavor. Tree vigorous and very productive. July.

DUARTE—A blood red plum of late introduction. Fruit large and elongated; skin dull red. Flesh firm, deep red, and good quality. July.

GREEN GAGE—Medium round, skin tender, yellowish green flesh. Juicy and deliciously sugary. Separates freely from the stone. One of the best home orchard plums. July-August.

PEACH PLUM—Very large; skin brownish-red, slightly coarse grained but juicy, sprightly flavor; very popular as a home and market variety. July-August.

PLUM COT—This is a variety of plum that has been crossed between the apricot and plum. A mid-season variety. Medium size, crimson skin, yellow flesh. Excellent flavor. July.

There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the people who consider price only are this man's lawful prey.—John Ruskin.

PRUNES

Prunes are plums with a higher sugar content, and will dry without having pit removed. Handsome fruits—delicious when eaten fresh or canned.

Prices: Please refer to price list on page 20.

DATE or COATES 1418—An improved type French prune, larger than regular French. Fine for eating, canning or drying. Reddish purple, juicy, sweet.

HUNGARIAN—Largest, beautiful bright red with lilac bloom. Good market variety, and ideal for home. September.

FRENCH IMPROVED—Medium size skin, dark blue fruits are sweet, juicy and delicious. Tender skin, fine texture. Tree is vigorous and very productive. Good for fresh, drying or canning. An excellent choice for home orchards.

ITALIAN—Medium to large size, oval, dark purple; flesh juicy, sweet and delicious; a standard drying and shipping variety. September.

SUGAR—The earliest prune for shipping or canning use. Fruit medium to large, oval, dark purple. Flesh sweet and of good quality. Excellent pollinizer. August.

WEATHERSPOON—This is an Italian Prune of improved type. Large, heavy producer. A vigorous grower and one of the best shippers grown. Ripens about the same time as regular Italian.

PRUNES, SUGAR

ITALIAN PRUNES

FIGS

Oregon Grown and Acclimated

Grow wholesome, delicious figs in your own orchard. They thrive and bear well along the coast and interior valleys. Perfect for eating fresh from the tree in late summer. Full of rich tasty flavor. The following varieties are recommended for the Northwest.

One year old \$1.50 each; two year old \$2.00

LATTARULA—A sweet white flesh fig of excellent flavor and quality. White skin. Bears the third year. Ripens two crops a season. First crop first part of August, second crop October. Used for eating fresh or preserves.

BROWN TURKEY—Produces large, elongated fruits, rich purplish-brown in color. Flesh is a strawberry red, fine grained, sweet and juicy. Adaptable to any section where the fig may be grown.

GRANATA—Black Persian fig. Grown in Persia and Syria, but quite hardy in this locality. One of the largest in size. Not quite as hardy as Lattarula but should be included when planting.

FIG, BROWN TURKEY

CHERRY, BING

SWEET CHERRIES

BING—One of the largest of the black sweet cherries. Flesh very solid, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive. A good shipper. Requires pollenization.

BLACK REPUBLICAN—Medium sized. Very dark red, almost black. Rich, solid and an excellent keeper. Pollenizer.

BLACK TARTARIAN—Very large, purplish black, half tender; flavor mild and pleasant. Tree vigorous, immense bearer. Ripe last of June. Pollenizer.

LAMBERT—A very large, heart-shaped cherry with firm flesh and rich, sweet flavor. Dark purplish red, meaty and of fine texture. Good shipper. Requires pollenization.

ROYAL ANN (Napoleon)—Fruit large; light yellow with red cheek, very rich, solid, excellent keeper. The leading commercial canning variety. Requires pollenization.

SPECIAL NOTE

During the past few years considerable research work has been carried on by the Oregon Experimental Station at Corvallis, in regards to the virus trouble in cherries, which has caused considerable loss to many beautiful orchards. We are thoroughly convinced in the necessity of this work and have cooperated to the extent that we are now offering only trees propagated from registered trees, which have been indexed and found to be free from injurious virus troubles. These parent trees are all registered with the Experimental Station and the registered number can be furnished with any of our trees. All are budded or grafted on the true Mazzard root. It costs more to grow trees this way but the final results in the orchard is our main consideration. **BUY ONLY THE BEST.** Ours will stand the test of time.

CHERRIES

Cherry trees are a real asset to any home, not only for the large, sweet, luscious cherries they produce but also for the valuable shade they afford. They thrive in almost any soil with very little care but, of course, respond to care and attention, especially while young. The sweet varieties are larger but less hardy than the sour varieties. **All the bud wood used in propagating our trees is taken from registered, marked trees of the best proven strains and are budded on the whole roots of true mazzard stock.**

Prices: Please refer to price list on page 20.

SOUR CHERRIES

NOTE: Due to their growing habits, Sour Cherries are generally somewhat shorter in height than Sweet Cherries for the same caliper.

EARLY RICHMOND (Kentish)—Medium size, bright red; flesh melting, juicy and rich acid flavor. June.

LATE DUKE—Large, dark red; juicy and rich. An old excellent variety, very productive. July.

MAY DUKE—One of the best hardy cherries; medium size, dark red, melting, rich and juicy. First of June.

MONTMORENCY—The most widely planted sour cherry. Tree very hardy and productive; regular bearer of fine crops; fruit large, fine flavor, shining red, valuable everywhere. July.

FREE PLANTING INSTRUCTIONS

With each order shipped we enclose a copy of "How to Plant." This helpful booklet will give you much assistance in properly planting and caring for your plants.

NUT TREES

FILBERTS

Nursery Grown Transplanted Trees

We have a very good stock of two- and three-year-old, well rooted, transplanted trees to offer. These trees will come into bearing much quicker than the one-year tip layer trees.

	Each	10-25
3-4 ft. Branched.....	\$1.25	\$1.00
4-5 ft. Branched.....	1.50	1.25
5-6 ft. Branched.....	1.75	1.50

Tip layer trees for commercial planting quoted on request.

BARCELONA—A large, round nut that drops freely from its husk. Rich in flavor, kernel uniform in size. Very prolific when pollenized with Du Chilly and Daviana, alternated by setting every third tree in every third row to a pollinizer. A leading commercial variety.

DU CHILLY—Pollenizer. A large, long nut, about 50 per cent self husking and balance readily husked by machinery or hand, finest quality demanding a premium over Barcelona. Often used as a main commercial crop.

DAVIANA—Pollenizer. A long, striped nut of the Du Chilly type. Excellent pollinizer for Barcelona and Du Chilly; not planted commercially; quality good and tree a strong upright grower.

WE PAY THE FREIGHT

You pay only one price for **MOLLER'S** trees, **THE CATALOG PRICE. DO NOT ADD:** Packing Charge or Freight Cost.

CHESTNUTS

PRICES

4-6 ft. Branched.....	2.00
6-8 ft. Branched.....	2.50

AMERICAN SWEET—A handsome shade tree, bearing medium-sized nuts of superb flavor. Sweet.

SPANISH—Valuable both for ornamental use and fruit. Produces larger nuts than the American and quite similar in flavor.

ITALIAN—Well-shaped tree, bearing medium-sized, sweet nuts of excellent flavor.

WALNUTS, ENGLISH

FILBERTS, BARCELONA

ALMONDS

Almond trees like a dry summer climate with considerable heat. Being early to bloom, the best locations are on higher lands free from frost and with good drainage. Two or more varieties should be planted to insure proper pollinization.

PRICES

	Each
3-4 ft. Branched.....	\$1.00
4-5 ft. Branched.....	1.25
5-6 ft. Branched.....	1.75

NONPAREIL—Most popular thin-shelled variety. Kernel long and narrow, and of excellent quality. Tree vigorous grower, producing heavy crops of large well-filled nuts.

I. X. L.—One of the standard commercial varieties. Hulls easily. Nuts are large and symmetrical. Shell soft, smooth, kernel large and well-filled, tree a strong grower.

NE PLUS ULTRA—Large nut, soft shelled, big kernels of excellent quality. Good producer and pollinizer.

DRAKE'S SEEDLING—Tree a vigorous grower and strong bearer. Valued for pollinizing other varieties of almonds. Nut medium size, kernel soft, plump and sweet. Soft shells.

WALNUTS

	Each	10 Each
3-4 ft.	\$1.75	\$1.50
4-6 ft.	2.25	2.00
6-8 ft.	3.50	3.00

FRANQUETTE—These are prolific bearers of large well filled nuts that shell out easily. Grown from seed of the grafted Franquette. Generally more hardy and equally as good as the grafted type for home orchards. Makes a fine shade tree.

MAYETTE—Large round, thin shelled nuts. Light kernel of very good quality. Very heavy producer.

Grafted Franquette

An English type walnut grafted on California Black root. An improved strain with large, oval nuts, allowing a larger kernel than the shorter types. Shells easily but is not soft shelled. A heavy yielder of uniform, high quality nuts.

GRAPES, CONCORD

SPECIAL VARIETIES of RECENT INTRODUCTION

2-year No. 1 plants: 75c each; 10 for \$6.50

CACO—The new red grape. Of exceptional merit. Earlier than Concord. Wine-red, compact bunches, good size, hardy, thrifty grower. Good arbor variety.

GOLDEN MUSCAT—Choicest golden amber-white grape for your fancy desserts and wines. Large, somewhat oblong berries in large compact bunches. Rich, sweet, mellow, aromatic Muscat flavor. Wonderful keeper, shipper and producer.

SENECA—The bunches are of medium size, tapering, compact; berries oval, yellow, medium size. Sweet, vinous, and aromatic. The skin can be eaten with the berry. Vine is vigorous, healthy, hardy and productive.

URBANA—Berries light red, medium to large, ovoid to spherical. Skin thick, adherent to the pulp; flesh firm but tender, sweet, spicy, vinous flavor. Very good table grape. Late.

EUROPEAN TYPE GRAPES

No. 1 plants: 50c each; 10 for \$4.00

THOMPSON SEEDLESS—The best known seedless grape; widely planted for raisins, market and home fruit as well. Large bunches of rather small, amber-yellow berries; sweet and mild.

TOKAY—Very large bunch and berry, thick skin, pale red covered with bloom; firm, sweet flesh. An old standard table variety.

MUSCAT—Large, long, somewhat loose bunch; berries elongated, slightly oval, amber color when ripe. Flesh firm and brittle, sweet, rich, sugary. Leading table grape.

NEW GRAPE SPECIAL

1 Caco—1 Fredonia—1 Golden Muscat

All 3 for \$1.95. Postpaid

GRAPES

The All Purpose Fruit
Bears Every Year—Good for Jams, Jellies, Juice and Fine for Eating

One or two dollars' worth of grape vines will supply you with many dollars worth of fruit for a lifetime. They bear young. You can plant along the lot line or fence, 8 feet apart. Planting and pruning instructions sent with each order.

HARDY AMERICAN GRAPES

Well-rooted 2-year No. 1 plants: 50c each; 10 for \$4.00

Well-rooted 1-year No. 1 plants: 35c each; 10 for \$3.00

BRIGHTON—Berries medium to large, dark red covered with bloom; flesh rich, sweet, and of the best quality; ripens early. Vigorous and productive.

CAMPBELL'S EARLY—Handsome black berries with purple bloom. Flesh is firm, but tender, rich, sweet and slightly vinous. An excellent commercial variety.

CONCORD—Fine black variety; juicy and sweet, splendid flavor; reliable and productive. One of the most popular and adaptable varieties. The standard grape in many sections.

WORDEN or IMPROVED CONCORD—Seedling of the Concord, which it greatly resembles in appearance and flavor, but the berries are larger. The fruit is better flavored and ripens earlier than the Concord.

MOORE'S EARLY—A good blue-black grape of superior quality; the earliest good American grape; thick fleshed. Vines grow increasingly productive with age. Fine for eating fresh, jelly and preserves.

NIAGARA—Very large, round, golden white grape of musky flavor, grown in large, compact bunches. Ripens same season as Concord and is often called the "White Concord". Very hardy and prolific.

PORTLAND—Medium to large, white berries with thin gray bloom. Flesh firm but medium tender, juicy and sweet. Early to midseason. A fine dessert grape for home and market. Very productive.

FREDONIA—Best of the new early grapes. Two weeks ahead of Concord. Fine clusters of extra large blue fruits that are plump and juicy. Recommended by experimental stations, horticulturalists, and commercial growers.

NIAGARA GRAPES

RED, WHITE AND BLUE COLLECTION

An assortment of our finest grapes, every one hardy, productive and selected so you will have early, medium and late ripening—red, white and blue grapes—giving you fresh grapes for many weeks. Our strong 2 year No. 1 vines will start bearing the year after planting out.

1 Moore's Early 1 Improved Concord
1 Brighton 1 Niagara
2 Concord

All 6 for \$2.35. Postpaid

PLANTING SUGGESTIONS

FRUIT TREES—On branched trees such as most Apple, Pear, Peaches, etc., select three to five side branches on different sides of the trunk and 6 to 8 inches apart and cut back about one-half (three-quarters on Peach stock) their length. Try not to leave two branches nearly opposite. Cut off the top of the tree to about 24 to 36 inches from the ground. Whip trees should be topped about 24 to 40 inches from the ground.

SHADE TREES—Do not cut off the leader or main stem, but prune to avoid crowding branches, by thinning out the short branches, and cutting back all the other side limbs.

Roots on all trees and plants should be trimmed back one-half inch or more, cut long roots to balance, cut off all broken or bruised roots.

Suitable Distance for Planting

	No. Feet Each Way
Apples	25 to 35
Pears	18 to 25
Sweet Cherries	25 to 35
Sour Cherries	20 to 25
Plums	18 to 25
Prunes	18 to 25
Peaches	18 to 25
Almonds	18 to 28
Quince	12 to 18
Nectarines	16 to 20
English Walnuts	40 to 60
Filberts	20 to 25

These distances will vary according to the type of soil and locality. For garden or home orchard, trees can be a little closer than for commercial orchards where cultivating is essential.

PLEASE NOTE

When comparing catalog prices of Trees and Shrubs the height gives a poor idea of true value. Well furnished plants of sturdy ripened growth, cannot properly be described or compared on paper.

10 Trees, 4-6 ft., postpaid.....\$8.50

10 Trees, 3-year branched, express prepaid \$14.95

PLANTING SUGGESTIONS

HOW TO PLANT FRUITS. BERRIES. ASPARAGUS

TREES should be planted as soon as possible after they arrive. Keep moist until planted. Do not expose roots unnecessarily to sun or wind. If not planted immediately "heel-in" in moist soil.

① **COVER** with wet burlap or wet newspaper until planting holes are ready.

② **PRUNE** all broken roots with a sharp knife or pruning shears. Make a clean cut—they heal quickly. Never pull broken pieces off.

③ **SPREAD** roots out in a natural position and tamp soil firmly about roots. Water well.

④ **PRUNE THE TOP GROWTH.** Young trees may have from one to several small twigs when planted. These develop into the main branches later on.

It is important to carefully select the branches to leave so that the top of the tree will be well balanced, sturdy and strong. Heavy bearing trees should be disbudded for larger, finer flavored fruits.

BERRIES may be planted as hedges, but sprawly kinds like blackberries (Boysen, Young, and Logan) are better trained on trellises. Their dense growth covers the trellis and fruits appear on the surface.

STRAWBERRIES.

Space 1 ft. apart each way. For the home garden 3 feet is a good width of bed—any length—for wider beds allow walk at 3-foot intervals.

Strawberries used as cover on dry wall. Plant in intersections of blocks in good soil. Face sun.

ASPARAGUS. Plant in furrows or trenches. Roots should be 6 to 8 in. deep, but when planted cover only 2 to 3 in. and later in season fill in the remainder. Cut very lightly second season; full crop third year.

Three feet between rows.

Send living gifts that your friends will cherish for years -- Send them

At Christmas

For Birthdays

For Mother's Day

For Anniversaries

For Any Occasion

Each year more and more people wish to send their friends and loved ones Living Gifts.

It is very easy to do. Just select from our catalog whatever you wish us to send and give us the complete address of those to whom you want it shipped.

We will send them a suitable Gift Certificate giving your name as the donor and listing the stock (without prices) they will get. At the proper time we will send the stock to them.

Year after year your gift will be a reminder of your thoughtfulness.

HOW TO PLANT

CURRENTS and GOOSEBERRIES—Cut off half the tops and plant 4 or 5 feet apart. Each year, as soon as fruit is gathered, cut and burn all wood 3 yrs. old. Allow 5 or 6 new shoots to develop each year.

RASPBERRIES, Red and Black—Plant 3 or 4 feet apart in rows 6 feet apart. Set plants 1 or 2 in. deeper than they were in the nursery. Cut back all bushes to 6 in. or less of the ground. After fruiting, cut out old canes and burn, leaving a few vigorous new canes for fruiting the following year.

GRAPES—Dig a broad, deep hole and fill to the right depth for planting with compost or rich soil. Trim roots slightly and cut back to one stem with 3 or 4 strong buds. Always plant firmly.

STRAWBERRIES—Cultivate land deeply before planting. Shear long roots back to about 4 in. Set plant with the crown at surface or a little below. Spread roots out in fan shape and hanging down to their full length. Firm dirt around roots, leaving loose soil around plant at the surface.

RHUBARB—Plant three feet apart in rich garden soil, with buds 1 inch below level of ground.

ASPARAGUS—Plant in rich soil a foot apart in a furrow 6 inches deep. Cover 3 inches and tramp. In hoeing, work soil toward the plant so that by mid-summer the ground is level. Do not cover 6 in. deep at first or plants will smother. Cut only sparingly the second year. Fertilize Asparagus and Rhubarb liberally with stable manure every year.

(Regular Price \$4.60)

CURRENT, RED LAKE

BLUEBERRIES

An acid soil, rich in leaf mold and with an abundance of moisture throughout the growing season, is best for success in blueberry culture. For home gardens a spacing of five feet by three feet is generally sufficient. It is advisable to plant two or more varieties for proper pollenization. While blueberries do well in partially shady locations, full sun is preferable, as the fruit ripens earlier, more evenly and the sugar content of the berries is higher.

NAMED VARIETIES OF BLUEBERRIES

	Each	10-50
2 yr. plants	\$1.25	\$1.00

RANCOCAS—Early, large berries, strong grower, good commercial berry.

RUBEL—Midseason; berries medium size, flavor good, producing enormous crops.

JERSEY—The best late variety. Berries are large, good flavor. Bush a vigorous grower and producer.

CABOT—Early. Matures its fruit over a long period. Large berries of good quality.

CONCORD—Midseason. The fruit of this variety holds on the bush well after ripening. Large berries of excellent flavor.

STANLEY—Midseason. Good flavored berries on a bush that is productive and easy to prune.

RASPBERRIES, RED

RASPBERRIES

No. 1 transplants: 20c each; 10 for \$1.75

Red

WASHINGTON—New. Produces a very heavy crop of berries that are slightly larger than Cuthbert, firmer and brighter color. Disease resistant.

CUTHBERT—Very hardy, medium to large, firm and of excellent flavor, good shipper, at present the leading main crop raspberry.

NEWBERG—A new red raspberry that is gaining in popularity. Attractive bright red berries, heavy yielder, good shipper, rugged upright canes. Similar, but decidedly better than Latham.

WILLAMETTE—A recent introduction from the Oregon State College Experimental Station. Large, beautiful dark red berries are firm and rather long. Excellent for home use and rapidly becoming accepted by commercial growers. Hardy and disease resistant.

Everbearing

ST. REGIS—Attractive bright red berries are full of flavor and very sweet. Ripens in June, and bears an unusually good fall crop—some fruit all season. Popular commercially and for home gardens.

BLACKCAP RASPBERRY

CUMBERLAND—The one completely dependable black variety. Produces large crops of purplish black berries of excellent flavor. Exceptionally hardy. A good shipper. Fine for home gardens.

STREAMLINER, EVERBEARING STRAWBERRY

BERRIES

STRAWBERRIES

	25	100
Postpaid Prices	\$1.25	\$2.75

Please write for prices on large quantities.

DORSETT—New. An early red variety; firm and productive; very high quality, a wonderful market berry.

IMPROVED OREGON—Northwest favorite mid-season strawberry, producing enormous berries of high quality, delicious and sweet.

MARSHALL—High quality home canning and commercial variety for the West. Fine for dessert, canning, shipping and freezing.

RED HEART—Late. A firm, bright red to the core berry that does not shrink when canned or preserved.

SHASTA (University)

Bred by the University of California Experiment Station. Produces during spring, summer and fall. Medium large round berries are firm, juicy. For fresh market and canning. Best for central coastal areas.

Postpaid prices: 25 for \$1.75; 100 for \$5.50

Streamliner Everbearing

A new introduction of excellent quality. Firm, rich, radiant red, highly flavored berry with excellent canning and freezing qualities. Produces abundantly from June to November. Hardy plants with luxurious green foliage.

	25	100
Postpaid Prices	\$1.75	\$5.50

Evermore Everbearing (Minnesota 1166)

No longer waiting for delicious strawberries. Evermore is a rugged everbearer, originated in the North. It can stand cold winters, dry summers and light soils. Big dark red-all-the-way-through berries, sweet and not too acid. You will like them. A new variety—heavy producer of good berries.

	25	100
Postpaid Prices	\$1.75	\$5.50

Rockhill Everbearing

	25	100
Postpaid Prices	\$2.75	\$9.50

This strawberry bears young and over a long season. A very productive plant of sweet, rich red berries. It has gained in popularity tremendously for back yard plantings and for barrel planting. This variety does not produce runners and is propagated by crown divisions.

SHORTCAKE SPECIAL

THORNLESS BERRIES

PRICES FOR THORNLESS BERRIES

	Each	10
2-yr. transplants50	4.00

Thornless Boysenberry

This thornless strain has retained all the good characteristics of its parent with the exception of the thorns. You can handle these canes with your bare hands and enjoy picking the large, attractive fruits.

Thornless Youngberry

Like the older type youngberry in quality and production of large, luscious berries but without thorns. Berries ripen a few days earlier than the thorny type.

Thornless Loganberry

This new berry has proven far more productive and the berries are larger than the old thorny type of loganberry. A delightful, highly flavored berry of dark red color. The canes are larger and entirely thornless.

Thornless Evergreen Blackberry

Postpaid Prices: 2-year transplants, 40c each; 10 for \$3.00

This profitable and prolific berry has been improved in quality and is thornless. A berry you can really enjoy for late season and freezing.

GARDEN ROOTS

ASPARAGUS PRICES

	10	25	100
2-yr. No. 1 roots.....	\$.60	\$1.00	\$3.50

MARY WASHINGTON—Rust resistant. The shoots are large, very vigorous, straight and of superb quality. Dark green. A good variety for both the home and commercial grower.

PARADISE—A new variety, widely heralded as an unusually heavy producer of fine flavored asparagus.

RHUBARB PRICES

	Each	Per 10
Crown Divisions	\$.20	\$1.75

Not a luxury, but a necessity for a well-balanced garden. Fine for sauce or pies.

RIVERSIDE GIANT—Extra large, fine for canning.

STRAWBERRY—This variety produces great numbers of stalks. It is the strongest grower and is more hardy. Especially adapted for home use.

HORSERADISH ROOTS

Thrives everywhere.

PRICES: 20c each; 10 for \$1.75

BOYSENBERRY

BOYSENBERRY

Postpaid Prices: 2-year transplants, 30c each; 10 for \$2.50

An immense new berry produced by crossing blackberries, raspberries, and loganberries. The flavor is a pleasing blend of these varieties. It has few and soft seeds. The Boysenberry consistently produces heavy crops, bears young, and the fruiting season lasts two months. The vines are very hardy.

YOUNGBERRY

Postpaid Prices: 2-year transplants, 30c each; 10 for \$2.50

A superbly flavored, recent introduction—a cross between the Logan and Dewberry. The color is so very dark red that it is nearly black. Vines are vigorous and productive.

NECTARBERRY

Postpaid Prices: 2-year transplants, 45c each; 10 for \$3.50

A new berry similar to Boysenberry, darker in color, but sweeter and less acid. Really a superior berry. Grows like Boysenberry. Vigorous and productive. Not thornless.

CASCADE BLACK BERRY

Postpaid Prices: 40c each; 10 for \$3.00

A cross between Loganberry and the wild-trailing Mountain Blackberry. The large berries are much preferred for jelly, jams and pies.

**ALL BERRY PLANTS WE FURNISH ARE
